WARRANT FOR ANNUAL MEETING

THE STATE OF NEW HAMPSHIRE

To the Inhabitant of the Town of Milford in the County of Hillsborough in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Town Hall in said Milford on Tuesday, the ninth day of March, next, at six of the clock in the forenoon, to act upon the following subjects:

1. (a) To choose all necessary Town Officers for the year ensuing; (b) and to choose three delegates to the Constitutional Convention.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3. To act upon the reports of all Town Officers, Agents, and Committees, and raise and appropriate money relative thereto.

4. To see if the town will vote to authorize the Selectmen to borrow money in anticipation of taxes, if necessary, as provided by law of 1907.

5. To see what sum of money the town will vote to raise and appropriate for town officers' salaries, town officers' expenses, tax map revision, election and registration expenses, municipal court expenses, repairs and supplies for the town house, Milford Public Works, police protection, fire protection, moth extermination, collection of garbage, health department, vital statistics, town maintenance of highways, snow removal, street lighting, Milford Free Library, town poor, parks and playgrounds, cemeteries, interest on temporary loans, interest on bonded debts, interest on serial notes, water and electric utilities, Livermore Community Association, work on town trees, damages and legal ex-

pense, town construction of highways, sidewalk construction, sewer construction, and maintenance, town dump, Memorial Day, World War II History, employees' retirement, insurance on town buildings, contents, vehicles, and Workmen's compensation, payment on principal of debts, and county taxes.

6. To see if the town will vote to raise and appropriate the sum of \$519.00 for advertising the town through the Monadnock Region Association.

7. To see if the town will vote to raise and appropriate the sum of \$110.26 to pay the premium on fire insurance policies written on the Community House, on March 29, 1947, for the term of three years.

8. To see if the town will authorize the Selectmen to administer or dispose of any real estate acquired by the town through Tax Collector's deeds until this action shall be rescinded by the Town.

9. To see if the town will vote to raise and appropriate the sum of \$680.61 for T. R. A. work on the highways.

10. To see if the town will vote to continue the practice of allowing the discount for early payment of taxes.

11. To see if the town will vote to raise and appropriate the sum of \$800.00 to purchase an air compressor for the fire department.

12. To see if the town will vote to assume payment of a note at the Souhegan National Bank for \$2000.00, given by the Selectmen in payment for the Armory lot, and raise and appropriate money for the same.

13. To see if the town will vote to authorize the Selectmen to enter into a five-year contract with Donald K. Holt for the collection of garbage at the rate of \$800.00 per year.

14. To see if the town will vote to raise and appropriate the sum of \$6000.00 for use of the Water Department in the following manner:

Purchase of Chlorinator	\$2200.00 (est. cost)
Repairs to Diesel	1400.00 (est. cost)
Replacement of Valves	2000.00 (est. cost)
Repairs to Filter	400.00 (est. cost)

15. To see if the town will vote to raise and appropriate the sum of \$4000.00 for the use of the Water Department to make the pumping equipment automatic.

16. To see if the town will vote to raise and appropriate the sum of \$200.00 for use of the Planning Board in development of plans for projects which meet with the approval of the Selectmen.

17. To see if the town will vote to raise and appropriate the sum of \$500.00 for measuring all streets in the compact area of the town and officially assigning numbers to all adjacent property in accordance with the report of the Planning Board.

18. To see if the town will vote to raise and appropriate the sum of \$5400.00 for the purchase of a tractor equipped with a sand and gravel loading bucket, snow loading bucket, and a bull dozer blade.

19. To see if the town will vote to raise and appropriate the sum of \$3000.00 for the purchase of a new 2 to 3 ton dump truck to replace the 1936 Dodge.

20. To see if the town will vote to raise and appropriate the sum of \$1400.00 for the purchase of a 1½ ton pickup truck for the Milford Public Works.

21. To see if the town will vote to discontinue as an open highway and make subject gates and bars the section of road referred to in State Highway records as road numbers 88 and 89 beginning at the Mason Road, proceeding along the Hall Road, (Road No. 88) to a

point 1.3 miles from the Brookline line where the Hall Road is already subject to gates and bars, and beginning at the Wolffer property on the Wolffer Road (Road No. 89) to the Hall Road.

22. To see if the town will vote to have the Moderator appoint a committee to investigate the need of a simple, yet effective Zoning ordinance, and bring in recommendations to the next annual town meeting. (See Public Works report.)

23. To see if the town will vote to raise and appropriate the sum of \$2500.00 for State Aid Construction on Route No. 13.

24. To see if the town will vote to have the Moderator appoint a committee of five to arrange for the removal of the present Honor Roll, and bring in recommendations to the next annual meeting for the erection of a permanent Honor Roll, covering cost, design, and location of same.

25. To see what action the town will take relative to plowing snow from Private Roads and Highways not laid out or owned by the town, and raise and appropriate \$300.00 for the same.

Resolved: That upon application prior to November 1st of any year, the Selectmen shall bind the Town and Department of Public Works to plow snow from Private Roads and Highways not laid out or owned by the Town, which are more than 200 feet in length, for the ensuing season, under the following conditions:

A written agreement by the property owner and the Selectmen shall be signed and filed with the Department of Public Works which shall contain these stipulations:

1. The Town shall be absolved from damage caused by the snow removal equipment;
2. The Town shall be guaranteed payment

for damage to the snow removal equipment caused by any hazardous condition of the private road;

3. The property owner shall guarantee to the Town payment of the actual cost of snow removal which shall be added to the owner's property tax and constitute a lien on the property served;

4. The Selectmen will be given authority to arrange that this work shall not be done prior to the proper opening of the Town Highways, and to collect in advance a deposit to cover expected costs if in their judgment such action is advisable.

Resolved: That the Town shall at proper request plow snow from the driveways leading to the several Milford Churches without costs to those institutions. (By petition.)

26. To see if the town will approve the following: That the Selectmen be authorized to assess and collect the sum of \$75.00 from any property holder before the property is connected with a sewer. That this amount shall constitute payment in full for the construction of a sewer connection from the sewer to the line of said property and the street. That where the line actually used for highway purposes and the right of way shall differ in no case shall this act be interpreted to mean the line of the right of way. That the adoption of this article shall not constitute a basis of claims for refunds or adjustments of any sewer taxes or sewer connection fees having been assessed and paid under the provision of previous acts of the Town of Milford. That the adoption of this article shall repeal and make void all provisions of any previous action of the Town that conflict with the provisions of this article.

27. To see if the town will vote to raise and appropriate a sum of money for the purpose of providing Johnson Street and vicinity with sewerage. (By petition.)

28. To see if the town will vote to extend the sewer from its present point of termination opposite the house of Hugo Trentini to the end of Prospect Street and raise and appropriate money for the same. (By petition.)

29. To see if the town will vote to raise and appropriate the sum of \$500.00 to be given to Mrs. Raymond Wright in behalf of the men and women of Milford who served in the armed forces. This in no sense to be considered as compensation, but rather as a token of their appreciation for her tireless efforts during the past six years in compiling material for the World War II Memorial History Book. (Sponsored by the Budget Committee.)

30. To see if the town will vote to have the Moderator appoint the Budget Committee for the following year, on or before April 15th, annually.

31. To see if the town will vote to grant free use of the Town Hall and Banquet Hall to the Harley-Sanford Post No. 4368 V. F. W. annually for the Thanksgiving Eve Ball. (By petition.)

32. To see if the town will vote to accept and adopt as town ordinances the following recommendations of the Public Health Regulations Committee:

No water supply for household use shall be procured until the source of supply has been approved by the Board of Health.

No cesspool shall be constructed until its location has been approved by the Board of Health.

The Selectmen shall appoint a Meat Inspector whose duties shall be to inspect all slaughtering within the limits of the Town of Milford. Said inspector shall be furnished with all necessary stamps for his use.

Every slaughter house hereafter constructed or maintained within the limits of the Town of Mil-

ford must comply with the following rules and regulations:

1. The location and plans must be approved in writing by the Board of Health before any alterations or construction begins.

2. The slaughtering of cattle, sheep and swine, except for private use, shall not be allowed within the limits of the town except in authorized slaughter houses.

3. No beef, pork, veal, mutton or lamb shall be sold or offered for sale for food purposes unless the animal from which the meat is taken has been inspected by the Meat Inspector before and after killing.

4. Every person or firm conducting a slaughter house must procure a license every year. Such license shall not be transferable and may be revoked if in the judgment of the Board of Health it becomes necessary.

5. The above rules and regulations shall not prevent slaughtering for private use or preparing foods for private use.

33. To see if the town will vote to authorize the Selectmen to lease to the Milford Civic Club for the use and benefit of the Boy Scout organizations in Milford the property held by the Town under Tax Deeds, described as Smalley Souhegan Granite Company, formerly Cutts land—Brookline Road, and Frank Lang Est., formerly Tonella land—Brookline Road, at an annual rental of \$1.00 for a period of ten years.

34. To see if the town will vote to empower the Selectmen to license and regulate the Taxi business as provided by the New Hampshire Public Laws. (By petition.)

35. To see if the town will vote to reimburse the Recreation Committee \$125.00 paid by them for clear-

ing Railroad Pond, and raise and appropriate money for the same.

36. To see if the town will vote to raise and appropriate the sum of \$6117.83 to cover deficiency of Cash Balance as shown by the Treasurer's report for the year 1947, which was created as a result of over expenditures and emergency expenditures made during the year.

37. To transact any other business that may legally come before said meeting.

Given under our hands and seal, this 21st day of February in the year of our Lord nineteen hundred and forty-eight.

LUNNIE H. PARKER,
ANDREW C. ELLIOTT,
A. WALLACE WILKINS,
Selectmen of Milford.

SYNOPSIS OF RECORD OF TOWN MEETING

March 11, 1947

Total Number of Votes Cast, 731

The polls were opened at 6 o'clock A. M. and the business meeting at 9:30 A. M. Prayer was offered by Rev. J. Wayne Haskell, Congregational Minister.

Acting under Article I of the Town Warrant, the following Town Officers were elected: Town Clerk, Donald C. Bruce; Town Treasurer, Hugo E. Trentini; Selectman for Three Years, A. Wallace Wilkins; Library Trustee for Three Years, Ruth D. French; Trustee of Trust Funds for Three Years, Benjamin F. Prescott; Fire Wardens, Jeremiah J. Casey, John J. Casey and Paul Hutchinson; Auditors, Leland C. Kidder and Joseph A. White.

Article 2. It was voted to raise and appropriate such sums of money as may be necessary to defray town charges.

Article 3. It was moved and seconded that all reports of town officials be accepted as printed. This was voted unanimously.

Article 4. On motion of Hugo E. Trentini it was voted that the Town be authorized to borrow money in anticipation of taxes.

Article 5. Working under this article, the following sums of money were raised and appropriated:

Sewer Construction (\$1000.00 earmarked)	
New Equipment, snow plow (\$2213.00 earmarked)	3000 00
County Taxes (actual \$22,870.85)	24,000 00

Unanimous approval was voted for the above expenditures.

Article 6. It was voted unanimously to raise and appropriate the sum of \$200.00 for advertising the town through the Monadnock Region Association.

Article 7. Upon recommendation of the Budget Committee it was voted unanimously to authorize the Selectmen to administer or dispose of any real estate

acquired by the town through Tax Collector's deeds.

Article 8. It was voted unanimously to raise and appropriate the sum of \$676.97 for T. R. A. work on highways.

Article 9. On recommendation of the Budget Committee it was voted unanimously to continue the practice of allowing the discount for early payment of taxes.

Article 10. It was voted unanimously, and on recommendation of the Budget Committee, to raise and appropriate the sum of \$725.00 to purchase five hundred feet (500') of new fire hose.

Article 11. The Budget Committee recommended the purchase of a tractor mower for the town, provided that one be procured, to which a blade plow for sidewalk plowing can be attached, and it was voted to raise and appropriate \$1700.00 for this purpose.

Article 12. On recommendation of the Budget Committee it was voted unanimously to raise and appropriate the sum of \$15,300.00 for a Walters Snow-Fiter, \$3300.00 to be raised and appropriated this year, the balance to be put on serial notes payable \$3000.00 each year for four years.

Article 13. It was voted unanimously to raise and appropriate the sum of \$23,867.00 to rebuild South Street from Union Square to the residence of Elgin Burtt; and Mont Vernon Street from the Stone Arch Bridge to Granite Street. On the Budget Committee recommendation it was voted unanimously to raise and appropriate the sum of \$3867.00 for this purpose this year, and the balance put on serial notes payable \$4000.00 per year for five years.

A motion was made to recognize Mr. Charles S. Emerson's attendance at his sixtieth consecutive town meeting in Milford.

Article 14. The Budget Committee recommended that \$750.00 be raised and appropriated for Workmen's

Compensation Insurance on all town employees excepting elected officers, and it was voted unanimously.

Article 15. On recommendation of the Budget Committee it was voted unanimously to raise and appropriate the sum of \$1000.00, and the Selectmen to appoint an Airport Committee, consisting of three members, authorized to act for the town in all matters pertaining to the establishment, construction and operation of aircraft landing areas and to confer and consult with states and federal officials and to execute in the name of the town any and all necessary or desirable instruments and agreements in connection therewith. This money not to be expended until approval of plans is granted and money allotted by Civil Aeronautics Commission.

Article 16. It was voted unanimously on the recommendation of the Budget Committee to renew the lease to the Ricciardi-Hartshorn Post No. 23, American Legion, of the Rooms now occupied by this organization for another period of five years at the terms of the previous lease.

Article 17. It was voted unanimously to raise and appropriate the sum of \$5000.00 to be paid to the Souhegan National Bank as full settlement for taxes collected by error on their non-taxable preferred stock between 1934 and 1944 amounting to \$9416.00. \$1000.00 to be paid this year, the balance to be taken care of by serial notes of \$1000.00 each year for four years, without interest. This was recommended by the Budget Committee.

Article 18. The Budget Committee recommended, and it was voted unanimously, to accept with thanks the generous gift from the late Harry L. Emerson, of land lying between the Post Office lot and the Souhegan River.

The following resolution was presented by Charles S. Emerson, and adopted unanimously: Resolved,

That in case a proposition to erect an armory, with State, and or Federal funds, should materialize, requiring a site to be provided by the Town, the Selectmen are hereby empowered and instructed to deed to the proper authority a site from any land held by the Town, which in their judgment is suitable and will be for the best interest of the Town.

Article 19. On recommendation of the Budget Committee it was voted unanimously to raise and appropriate the sum of \$200.00 for the use of the Planning Board in the development of plans for projects which meet the approval of the Selectmen. Amendment by Elmer M. Wheeler: To increase appropriation by \$500.00 making total of \$700.00; The sum of \$500.00 for the use of the Planning Board, in addition to their regular duties, to make a survey or analysis of the town listing its industrial potentialities and encouraging industries planning expansion to consider Milford.

The following resolution was presented by Elmer M. Wheeler, and adoption voted unanimously under Article No. 31 in conjunction with Article 19. Resolved: That the Selectmen of Milford take the initiative by aggressively inviting concerns planning expansion or new plants, to come to Milford to investigate Milford's resources and take advantage of locating in Milford.

Article 20. It was voted unanimously on recommendation of the Budget Committee, that all streets accepted by the town after this date shall not be less than forty feet (40') in width (the more desirable being fifty feet) and a plan thereof drawn by a civil engineer be submitted.

Article 21. On recommendation of the Budget Committee it was voted unanimously, that the Superintendent of Public Works have full authority regarding lending or renting of any town equipment.

Article 22. On recommendation of the Budget Com-

mittee it was voted unanimously to adopt Building Ordinances as presented by the Planning Board. The Building Ordinance Committee appointed by the Selectmen, October 18, 1946, recommend the Building Ordinances adopted March 11, 1941 be amended in accordance therewith, as follows:

1. That the word substantial be stricken from the three paragraphs headed

- a. Duties of Inspector of Buildings.
- b. Commercial or Public Buildings.
- c. Exits.

2. That the words, "or other structures" be inserted in the paragraph headed Duties of Inspector of Buildings, following the part of the paragraph which reads, "the erection, enlargement, or substantial remodeling of buildings."

3. That no permit shall be granted if question is raised by the Selectmen or any other citizen, whereas granting of such permit would become detrimental or injurious to the neighborhood, without a public hearing thereon. The Selectmen shall hold such public hearing and render a decision. The Selectmen shall have authority to make rules for such hearings and shall notify all holders of real estate, who might be affected, and shall hear such owners and others who desire to be heard.

4. That wood shingles, now covering any roof, shall not be covered with non-combustible or fire resisting material.

The Building Ordinance Committee:

Mario Infanti,
Elgin Burt,
Clifford Keogh,
Edward Hallet,
Charles Scully.

At 12:12 P. M. it was voted to recess until 1:30 P. M.

Article 23. **Section A.** On recommendation of the Budget Committee it was voted unanimously that there be an annual hydrant rental of \$20.00 per hydrant, payable by the Town to the Water Department. It was unanimously voted to raise and appropriate the sum of \$2320.00 for payment of hydrant rentals.

Section B. It was voted unanimously to raise and appropriate the sum of \$51,315.00 to underwrite the extension of the water main from the Hayward brick house on the Wilton Road to the Monadnock Sales & Service Co., and relaying of main, and that an 8-inch pipe be laid from the present 8-inch main at West Street to the beginning of the new extension, such pipe to be laid parallel to and connected with the present 6-inch main at frequent intervals, this amount to be restored to the town from the funds of the Water Department.

Article 24. On recommendation of the Budget Committee it was voted unanimously to raise and appropriate the sum of \$16,600.00 to underwrite the relaying of the water main on Dean Moore Hill from George Street to the Ricciardi house on Mason Road, and for extending this main as far as the residence of Walter Philbrick and the residence of Maurice Daniels, this amount of \$16,600.00 to be restored to the town from funds of the Water Department. It was voted to use a 6-inch pipe, and not necessarily be relayed by way of Union Street if able to serve more people from King Street or West Street.

Water Extensions

Whereas the voters of the Town of Milford at its annual meeting assembled on the 11th day of March 1947 have voted to raise and appropriate the sum of \$51,315.00 for the purpose of extending the Water Main on the Wilton Road to the Monadnock Sales & Service Co., and relaying of Main from West Street to Hayward brick house, and

Whereas the voters of said Town of Milford also voted to raise and appropriate the sum of \$16,600.00 for the purpose of relaying the water main on Dean Moore Hill to the Ricciardi house on Mason Road, and extending this main as far as the residence of Walter Philbrick and the residence of Maurice Daniels, or by some other way to accomplish the said extension, and

Whereas there are now \$16,000.00 of serial notes outstanding as a result of the erection of the new standpipe which bear annual interest at $2\frac{1}{2}\%$ per annum;

Be It Therefore Resolved: That the combined cost of these projects and the refinancing of said notes be combined and financed by the issuing of serial notes to the said Town of Milford to be the direct obligation of said Town in a sum not to exceed \$84,000.00 to be dated on or about July 1, 1947 and to bear interest at a rate not to exceed $1\frac{3}{4}\%$ per annum payable semi-annually, said notes to be issued in serial form maturing each year beginning with 1948 at an amount of \$4500.00 each year and in denominations of \$1500.00, each payable as it matures in the office of the Town Treasurer.

Article 25. Section A. On recommendation of the Budget Committee it was voted unanimously that the 1936 vote relative to insurance on Town property should be rescinded.

Section B. The Budget Committee recommended and it was voted unanimously to raise and appropriate the sum of \$2315.72, for additional insurance on town buildings and contents.

Property Covered

	Building Division 1	Contents Division 2
1. Town hall, Union Square	\$115,000.	\$25,000.
2. Lull dwelling, 21 Nashua St.	9,000.	

3. Pumping Station, South St.	15,000.	2,000.
4. Town Shed (private way, off Nashua St.)	2,500.	1,000.
5. Town Garage	1,000	500.
	-----	-----
	\$142,500.	\$28,500.

Article 26. On recommendation of the Budget Committee it was voted unanimously not to secure the assistance of the State Tax Commission in reappraising the taxable property in town.

Article 27. It was voted unanimously on recommendation of the Budget Committee not to petition the State Tax Commission to have an audit made by the Division of Municipal Accounting.

Article 28. On recommendation of the Budget Committee it was voted unanimously not to sell the land on Elm Street where the former town dump was located.

Article 29. On recommendation of the Budget Committee it was voted unanimously that a sum of money not to exceed \$400.00 be raised and appropriated for the purchase of land from Mary Whittemore for the purpose of widening the corner from Grove Street to Mont Vernon Street, and that the exact amount of land to be purchased and the amount of money to be paid for the same be determined by the Selectmen after further conference with Mrs. Whittemore or her agents.

The following resolution was presented by the Budget Committee and it was voted, Resolved: That should the land become available, the Selectmen be authorized to expend a sum of money not to exceed \$1000.00 for the purchase of land from Mary Whittemore on the southerly side of Grove Street for the purpose of creating a parking area for approximately fifteen cars.

Article 30. Stanley Hayward presented the following amendment and it was voted unanimously: Amend

the resolution as it appears in Article 30 of the warrant by adding at the end thereof the words This resolution shall not abrogate any written contract which may have been entered into between the Selectmen and the Superintendent of Public Works .So that as amended the resolution shall read:

Resolved: That in case of a discharge by the Selectmen, of the Superintendent of Public Works, the Superintendent shall be given opportunity, within one week, to demand, and shall be given a public hearing before the Selectmen, relative thereto, and the discharge shall not become effective if a hearing is demanded, until the hearing shall have been completed. This resolution shall abrogate any written contract which may have been entered into between the Selectmen and the Superintendent of Public Works.

Article 31. Report of Recreation Committee was read by Mrs. Gertrude N. Howison, and it was voted to accept her report, and unanimously voted that the present committee be retained, and three more added to this committee.

Report of Recreation Committee

The committee on recreation which, by vote of the Town Meeting, was continued for another year, wishes to report on progress for the past year.

With the thought in mind that this is to be a War Memorial we have proceeded along that line. "Memorials are for remembrance, they are a permanent commemoration of the war dead. Committees should carefully analyze the salient arguments advanced. A Permanent Memorial is a tribute to the dead, which will remain a lasting inspiration to the living."

This is our thought; to develop this project in such a manner as to carry out this idea.

We have plans to develop the so-called Blacksmith Lot to be a living memorial to those boys who made the supreme sacrifice. Just as soon as the weather per-

mits we shall start work. The Milford Garden Club has already appointed a committee to work with this committee in the planting of shrubs and evergreens. We ask the personal co-operation of all patriotic organizations and every citizen of the town. Let us make this a community project that in the coming years each one of us may say, "I had a part in the development of this beautiful memorial, which is a living tribute to those boys who made the sacrifice for us."

This will also give one of the main entrances to the larger development, the beautification of the pond which will be a War Memorial to all our boys.

This project should dovetail with the building of the library, as much of the excavation material can be used as fill.

We also have an entrance from South Street which was a gift to the Town made possible through the sale of the Newhall property. That gives us three entrances. We feel we have made progress the past year. We have all the west side, along the B. & M. R. R. tracks, on the east side all back of the former Newhall property and the Baptist Church.

Let us also keep in mind that when these two pieces of property were purchased by James J. Howison and given to the town, it was for the purpose of developing the area that it might give to our citizens both young and old a lovely spot for their enjoyment.

The committee would recommend that the present committee be retained for the coming year to finish the work which we have in mind on the lot as a living memorial.

Respectfully submitted,
 Gertrude N. Howison, (Chairman)
 Minnie Falconer,
 Edgar A. Norwood,
 Andrew C. Elliott.

The following resolution presented by Ralph S. Woodman was voted:

Be it Resolved: That the Milford Town Team have use of the baseball diamond at Endicott Park, Sunday afternoons, for the year 1947, in return for taking care of the diamond.

The Sidewalk Committee report on hazard of step near Economy Supply Store, recommends that the hazard to pedestrians that now exists at the double curbed sidewalk on the north side of Nashua Street, at the corner of Putnam and Nashua Streets, be eliminated, by removing one step and grading the surface according to plans of Mr. Grasso, of the area where Putnam and Nashua Streets join, the cost of same to come out of the general maintenance fund of roads and sidewalks.

Harland H. Holt recommended, and it was voted unanimously, that the \$100.00 from Salvage Committee, now in the bank, be divided equally among the Scout organizations—Girl Scouts, Brownies, Boy Scouts and Cubs.

Charles S. Emerson presented the following resolution to amend "Rules for Town Meeting," and it was voted unanimously.

Amend Section 2; By striking out the word "Tuesday" and inserting in place thereof the word "Monday."

So that as amended it shall read:

2. There shall be held a caucus for nomination of town officers on Monday of the week preceding Town Meeting, at which all whose names appear on the checklist shall be privileged to participate.

Amend Section 4. By striking out the word "Twenty-four" and inserting in place thereof the word "Forty-eight."

So that as amended it shall read:

4. The Town Clerk shall prepare an Australian

ballot for use at the caucus, upon which ballot shall be placed the names of all candidates for office which may be filed with him forty-eight hours prior to the caucus.

Dr. Burns presented the following resolution and it was voted unanimously. That a committee of three be appointed by the Moderator to draw up Public Health regulations to be presented at the next annual Town Meeting, to cover food, plumbing, and other matters pertaining to Public Health.

Public Health Regulations Committee,
Oscar Burns, M. D. (Chairman)
Salvatore Grasso
William Ferguson

The following resolution was presented by Joseph Cassarino;

Resolved: That at the next annual Town Meeting the polls be kept open from 10:00 A. M. to 6:00 P. M. Vote by show of hands 50 for, and 68 against.

A motion was presented by Elmer M. Wheeler and voted in the affirmative, that the Selectmen be instructed, when asked for, to allow basketball in the Town Hall.

Selectman, A. Wallace Wilkins inquired as to whether or not they should cut down cost of printing town reports by condensing the report. Voted to continue the printing of them as usual.

A motion presented by Hugo Trentini, to have the Selectmen cover all insurance in one item, was voted.

By vote of those present Town Meeting was adjourned at 3:35 P. M.

DONALD C. BRUCE,
Town Clerk.

BENJAMIN F. PRESCOTT,
Treasurer

REPORT OF TRUSTEES OF FREE LIBRARY

The Trustees of the Milford Free Library submit herewith their report. The library has served the town in many ways. Much reference material has been provided for school pupils as well as for other members of the community. Well selected books have been added. Lack of shelf space for books and magazines is an increasing problem, and hampers the librarians in their work. A new library is urgently needed.

We recommend that the sum of \$3,200. be appropriated by the town for the maintenance of the library for the ensuing year.

Respectfully submitted,

HARLAND H. HOLT,
BENJAMIN F. PRESCOTT,
RUTH D. FRENCH.

REPORT OF LIBRARIAN

I herewith submit the report of the Milford Free Library for the year January 1, 1947 to December 31, 1947.

The circulation has remained about the same as last year. During the time the new heater was being installed in the building the Library had to be closed several days and evenings which put us back somewhat.

We received gifts of forty-two books including thirty-four girls' books from Virginia Wasto. Two memorial books have been received this year in memory of Mrs. Mabel Ritchie from her family. Also there have been several subscriptions for magazines.

The Woman's Garden Club have continued to furnish the Library with attractive displays of flowers. The Girl Scouts under the direction of Mrs. Rotch supplied the table display for "Book Week." We had our usual collection of new books for the children to examine.

The children's story hour on Saturday morning began in November and has been well patronized and apparently is much enjoyed.

Several valuable books have been added, one especially of interest to the women is Early American Decoration.

Respectfully,
ANNABELL C. SECOMBE,
Librarian.

REPORT OF AUDITORS

We certify that we have examined the items, accounts and vouchers of the following departments for the fiscal year ending December 31, 1947, and to the best of our knowledge and belief they are correct:

Town Treasurer
 D. C. Bruce, Town Clerk
 D. C. Bruce, Tax Collector
 Clerk of Selectmen
 Treasurer, Milford Free Library
 Clerk of Municipal Court
 Overseer of the Poor
 Treasurer, Planning Board
 Treasurer, Board of Firewards
 Treasurer, Trustee of Trust Funds
 Treasurer, World War II History

Fire insurance policies on town properties were examined and found to be in force.

Surety Bonds covering the several Town Officers were examined and found to be in force.

The securities in the custody of the Trustees of Trust Funds were examined and found to be in proper order.

Respectfully submitted,

R. C. CAMPBELL,

J. A. WHITE,

Auditors.

REPORT OF MILFORD PLANNING BOARD

Membership of Planning Board

Charles D. Scully	Chairman
Carl H. Holland	
Charles F. Naimie	Secretary
Mario Infanti	Treasurer
Lunnie H. Parker	Selectman

During the past year the Board has worked on the following projects:

1. Further study of Streets and Roads.
2. Study of Milford's industrial potentialities and encouragement of industrial expansion.
3. Listing of available house lots in Milford to encourage residential expansion.
4. Study of Milford's Street and Road names and numbering system.

Width of Streets

The Board feels many streets developed in the past are too narrow and do not allow for sidewalks, parking, and safe two way traffic, also streets accepted in the past were not definitely established by accurate survey. Streets of adequate width are essential to a growing town, and should be established properly in the first place. It is very costly and difficult to widen streets later. South Street just off Union Square is an example. Therefore, the Board recommended to the Board of Selectmen, "that all streets accepted by the town from now on shall not be less than forty (40) feet in width (the most desirable being fifty (50) feet) and a plan thereof drawn by a Civil Engineer be submitted." In Article No. 20 in the Town Warrant of 1947 this recommendation was presented, and was approved by the voters of the town.

Report to Board of Selectmen

On Industrial Potentialities

The Milford Town Meeting of 1947 gave the Mil-

ford Planning Board a problem by amending Article 19 of the warrant as follows: Amendment by Elmer Wheeler: To increase the appropriation by \$500, making a total of \$700, the sum of \$500 for the use of the Planning Board in addition to their regular duties to make a survey or analysis of the town, listing its potentialities and encouraging industries planning expansion to consider Milford.

Under Article 31 in conjunction with Article 19. Resolved: That the selectmen of Milford take the initiative by aggressively inviting concerns planning expansion or new plants to come to Milford to investigate Milford's resources and to take advantage of locating in Milford.

The Planning Board went to work on these amendments immediately after town meeting and have held five meetings considering the problem. At one of these meetings the following were invited: the Milford Civic Club Industrial Committee, representatives of the U. S. Employment Office, Mr. George Nelson and Mr. Elmer Wheeler.

The Planning Board learned that the Milford Civic Club Industrial Committee has done an excellent job of advertising Milford and that it has been active and successful in bringing new industries to town.

Since 1933, this committee has taken positive action by giving unduly of their time, and spending considerable money to interest new industries to locate in Milford. Some of the companies that they have interested in recent years are Textron, what is now the John C. Duff Company, and the Monadnock Carpet Company. The efforts of that committee have increased the payroll in Milford approximately \$400,000 annually. They also have complete plans and details of buildings now in use by industry and building sites that are likely to be available for industry. Our report from them states the present following conditions.

1. Milford's Industrial Buildings are all occupied at present.

2. A housing shortage does exist.

3. Unemployment is at a minimum.

The U. S. Employment office maintains current information on the labor force in Milford and the surrounding towns, and this information is readily available from their office.

Representatives of their office stated that they keep current data on the labor situation in this area, and that the labor available in Milford at the present time is at a minimum. They can supply any interested concern with labor facts on short notice and are in constant contact with potential industry. Based on the facts of their office they are of the opinion that Milford is a town of well diversified industries and well above the State in average percentage of employable people gainfully employed.

The possibility of sending out a questionnaire was discussed to great length and a tentative questionnaire was drawn up for study. However, the Planning Board feels that because the labor force is continually fluctuating, the information must be kept current in order to be effective.

This information gathered by a questionnaire would be outdated before the results could even be compiled. The Board also feels that this data would be duplicating what is already available in much more accurate form from the U. S. Employment Office and the Civic Club Industrial Committee.

On the basis of our findings we as a board submit the following conclusions:

1. Milford's Civic Club Industrial Committee has listed Milford's industrial potentialities and is encouraging new industries to consider Milford.

2. That a questionnaire is impractical because it

would duplicate information already available in the U. S. Employment Office.

3. That the labor and housing situation in Milford at the present time would not warrant the location of a large industry in this town.

4. Since January of this year, the Milford Paint Company and the New Hampshire Overhead Door Company have located in Milford and there is still room for small industries to locate here.

5. We recommend that as long as the Milford Civic Club Industrial Committee handles Milford's Industrial development as adequately as they have in the past that no further action is necessary by this board on the amendment of Article 19 and 31 of the 1947 Town Meeting.

Respectfully submitted,
MILFORD PLANNING BOARD.

Available Building Lots

The Board placed an advertisement in the local paper urging owners of buildings lots available for sale to furnish such information to the Board.

The Board has a list of available lots from those who answered the advertisement now on file.

Street Names and Numbers

The Board found that street names and numbers in town have been developed without any set pattern or established plan. Some streets were not named, some named but never accepted, some names too similar with names of other streets, etc.

The Board worked on this project closely with the Board of Selectmen to get every street clearly named.

The Board did not take a position on whether or not streets should be named after Veterans of World Wars I and II.

Present street numbering is confusing and will not

allow for proper numbering as the town further develops.

Recommendations on street numbering made to the Selectmen:

1. Started on re-numbering. To start at Union Square.

2. To re-number Square starting at the stone bridge counter clock wise, with the odd numbers. The bounds of Union Square will be, on the north side the south end of the stone bridge, bounded on the west side by the east end of the bridge over the great brook, the south side by the north end of South Street, the east side by the west ends of Nashua Street, Middle Street and Maple Street.

3. All street leading from Union Square will have their numbers starting from Union Square. The numbers will run odd on the right and even on the left.

4. All cross streets will have the numbering begin at the end that starts on the odd numbered side of the streets connected thereby.

5. The numbering of all dead end streets will start at the street they leave.

6. Number for every 10 feet of frontage on
Union Square, Middle Street, Maple Street to
School Street.

Elm Street to Cottage Street.

Union Street to Lincoln Street.

South Street to Lincoln Street.

Nashua Street to High Street.

Mont Vernon Street to Myrtle Street.

Amherst Street to Summer Street.

7. All other districts 20 feet.

8. Recommend re-numbering of streets only in the compact area.

Respectfully submitted,

CHARLES F. NAIMIE, Secretary.

FINANCIAL REPORT OF THE PLANNING BOARD

Balance on hand Jan. 1, 1947	\$ 53 36	
Amount received for sale of maps	1 35	
Amount received from town appropriation	700 00	
	-----	\$754 71

	-----	506 75

Balance on hand Jan. 1, 1948		\$247 96
MARIO INFANTI, Treasurer.		

REPORT OF LIVERMORE COMMUNITY ASSOCIATION

To Town Appropriation \$200 00

This amount has been used as part payment of the fuel bill, balance paid from the receipts of the House.

The committee appreciates this appropriation, and we sincerely hope that the citizens of the town fully appreciate what the work carried on at the Community House stands for in the town.

Respectfully submitted,
GERTRUDE N. HOWISON,
Chairman.

REPORT OF FIREWARDS

The Board of Firewards submits the following report for the year ending December 31, 1947.

APPARATUS

Engine No. 1, Engine No. 2, Ladder No. 1, Pine Valley Hose Wagon, and a Forest Fire Truck; 3450 feet of 2½ inch hose in good condition, 950 feet in fair condition; 900 feet 1½ inch hose in good condition; 200 feet of garden hose in good condition.

This year there was added to the fire equipment a Homelite Generator plant with two portable flood lights, one for 250 watts and one for 500 watts, also 300 feet of heavy rubber light cord. This plant can be carried by two men and be used at any side of a fire where necessary (more lights and cord will be purchased eventually). Also added to our equipment is one Foamite Chemical Complete and one CO2 chemical, to be available for fighting gas, oil or tar fires. We have had occasion to use the Foamite on a tar fire and found it very successful.

During the year the department has answered 17 box alarms and 46 still alarms. The brush fire squad has responded to 18 brush fire calls.

For fire protection we recommend the appropriation of \$8000.

PARK COMMISSIONERS' REPORT

The board of Park Commissioners have met together four different times this summer. These meetings consisted of visiting the different plots of land under our care and found that Superintendent Grasso was doing a good job of keeping the grass cut down also in good neat condition.

The following plots of land under our care are Endicott Park, Shepard Park, Dean Park, the oval on Union Square, Hartshorn Park, in front of Fisher's store on Union St., the old dump land on Elm St., the new entrance to Endicott Park by the Cabinet office, the land along the river bank east of the People's Laundry, the land just east of the Episcopal Church and opposite the People's Laundry.

The Commissioners cooperate with the Civic Club in their Playground project at Endicott Park. Offered our cooperation to the Recreational Committee headed by Mrs. Howison on the Old Blacksmith Shop property and Railroad Pond projects.

The only recommendation that we have to make at this time is that the bleachers at Endicott Park should be repaired, if possible, if not should be rebuilt before the start of the outdoor games.

ARTHUR CARON,
ANTHONY J. ROSSI,
THOMAS F. O'NEIL, JR.

REPORT OF POLICE DEPARTMENT

To the Honorable Board of Selectmen and the Citizens
of the Town of Milford:

I herewith submit a report of the Milford Police Department from January 1, 1947 to January 1, 1948.

Traffic courtesy ticket warnings	250
Violation town ordinance	1
Vagrants	3

I wish to extend my sincere thanks to Sergeant Conti and Trooper McBain for the generous cooperation they have rendered the Police Department.

OLIVER G. WILLIAMSON,
Chief of Police.

REPORT OF WORLD WAR HISTORY COMMITTEE

Work of the History of Milford in World War II has progressed as much as possible during 1947. By March 1st all records and pictures will be in the hands of the editorial committee also all information for the balance of the book.

There will be a few over the 549 already on the Honor Roll due to the fact that a few boys who were born and brought up in Milford and are now residents, have requested that they be included in the book.

The records are in essay form and are being re-written that way from my original records. Several people are working on them and then return them to me for correction on data and then they are typographically corrected by Mr. Ferguson before going to the High School for final typing as they will be in the book. They then return to me for mailing and are sent to the boys and girls for verification. It is a long process but necessary to avoid as many errors as possible.

It is expected that it will be finished by midsummer but all depends how fast the reports can go through this process.

Respectfully submitted,

MRS. RAYMOND WRIGHT,

Chairman.

REPORT OF AIRPORT COMMITTEE

The committee appointed by the selectmen to investigate and recommend a location for an airport in Milford submit the following report:

It has been the desire of your committee to locate an airport between Milford and Wilton in order that this airport might suitably serve both towns. At the town meeting in Wilton last March the citizens voted against this proposition. Consequently, due to the fact that the location we had selected would be too expensive for us to develop without the aid of Wilton, it was decided to look for a less expensive site. To procure a suitable site in Milford is difficult. We have spent considerable time trying to locate such a site but without satisfactory results as yet.

The legislature last year voted money to assist in the development of such airfields but not to assist in the purchase of land. As yet there is no federal money available for purchase or development. In a report of the New England Aeronautics Administration, recently published, Milford was listed as one of the twelve desirable locations for new airports in New Hampshire. We feel that Milford should and will have an airport in the not distant future and for that reason we believe that this committee should be retained or another appointed to act for the town in matters pertaining to the establishment of an airport.

There is at present an unexpended balance of \$1,250.00 for this purpose and we believe that no more money should be raised until a specific project can be presented to the voters.

RODNEY C. WOODMAN,
ANDREW C. ELLIOTT,
VALMORE BEAUDREAU.

PUBLIC HEALTH REPORT

February 21, 1948

To the Honorable Board of Selectmen and Citizens of the Town of Milford, N. H.:

Health problems of the town of Milford for the past year reveal nothing new with the exception of the increased demands made necessary by state government. By reason of the increasing demands by state government regarding health laws, handling of food material, and preparation of same, also the required equipment and personnel, we herewith submit the following code and recommend the adoption of the same.

No water supply for household use shall be procured until the source of supply has been approved by the Board of Health.

No cesspool shall be constructed until its location has been approved by the Board of Health.

The Selectmen shall appoint a Meat Inspector whose duties shall be to inspect all slaughtering within the limits of the Town of Milford. Said inspector shall be furnished with all necessary stamps for his use.

Every slaughter house hereafter constructed or maintained within the limits of the Town of Milford must comply with the following rules and regulations:

1. The location and plans must be approved in writing by the Board of Health before any alterations or construction begins.

2. The slaughtering of cattle, sheep and swine except for private use, shall not be allowed within the limits of the town except in authorized slaughter houses.

3. No beef, pork, veal, mutton or lamb shall be sold or offered for sale for food purposes unless the animal from which the meat is taken has been inspected by the Meat Inspector before and after killing.

4. Every person or firm conducting a slaughter house must procure a license every year. Such li-

cense shall not be transferable and may be revoked if in the judgment of the Board of Health it becomes necessary.

5. The above rules and regulations shall not prevent slaughtering for private use or preparing foods for private use.

OSCAR BURNS, M. D., Health Officer,
SALVATORE P. GRASSO,
WILLIAM FERGUSON, 3rd,
Public Health Regulation Committee.

1947 ANNUAL REPORT OF BOARD OF WATER
COMMISSIONERS TO THE BOARD
OF SELECTMEN
December 31, 1947

Beginning with activities coming up for decision at the March 1947 Town Meeting, your Board of Water Commissioners has become increasingly active throughout the year acting in an advisory capacity upon subjects presented to them by the Superintendent of Public Works and the Board of Selectmen.

We have had many Board meetings, some of which were in conjunction with Mr. Grasso and the Board of Selectmen.

We have attended three very interesting state Water Works meetings and our chairman spent the best part of a day with Mr. Grasso at the Public Service Commission in Concord.

Of the several projects given us to study and advise, we recommended two and did not recommend two others. Two more are receiving a great deal of our time at the close of the year, especially our study of rates. In this study we find the cost of all material and labor has advanced so much, together with the fact that having had to purchase a chlorinator, make major repairs to the Diesel, and in 1948 will have to make extensive repairs to the mains and pumping equipment as well as arrange to pay additional payments plus interest on our recent large pipe line enlargements and extensions, this coming year is going to be a difficult one to finance.

In the past it has been deemed best by the town not to have a sinking fund whereby a surplus would have been built up and from that surplus money might be drawn to pay for these extensive repairs and replacements which are now developing. Since we do not have this fund, it appears at this time that the final rate setup will have to produce more revenue than the

present temporary one; that certain items; namely, the replacing of valves, repairs to the Diesel, the purchase of the chlorinator, the repairs to and the installation of automatic equipment for the pumping system and the payment of a temporary loan made in 1946, to cover the expense of overhauling and resanding the filter system; be paid for by direct taxation.

The past generations in Milford have enjoyed low water costs and it seems to us that the present generation, in paying these higher costs, is footing a bill which should have been paid in part by the two preceding generations.

We highly recommend that a close watch be maintained in every way to keep expenses as low as possible without curtailing good service, that a budget be set up for each quarter within the amount of income for that quarter and the known expenses be held to a figure so that there will be some amount left over to take care of possible emergencies. It is our aim and we fully expect to do our part to accomplish this end.

OWEN P. FISK, Chairman,
KENNETH C. LANGDELL,
WILLIAM A. WHIPPLE.

REPORT OF ARMORY SITE COMMITTEE

November 24, 1947.

To the Selectmen of Milford:

Report of Advisory Committee in Matter of Armory Site.

When it became apparent that Milford would need to act very promptly if we were to be among the first to secure a company of National Guard with its attending armory, the Selectmen requested three citizens to act with them in an advisory capacity regarding selection and procuring the necessary land for an armory site which would be purchased by the town and deeded to the state.

The citizens selected, whose names are appended to this report were informed by the Selectmen, they had viewed fifteen plots of land they thought were adapted for the location of an armory, when these sites were inspected by military authorities, ten were immediately rejected as not suitable.

The citizens' committee with one of the Selectmen attempted to get a price on each of the five sites remaining, and we found only one owner, who held title to the land, was willing to set a price at which they would sell, on a second site we could secure price on only half the land needed.

Fortunately the plot on which a price was secured was second choice of military authorities, being land of Mrs. Edith G. Moody of Worcester, Mass., near Osgood Pond and being part of the farm formerly owned by her father Charles N. Hutchinson.

Time at command did not suffice for calling a special Town Meeting for action by the town, even if a sufficient number of voters would have attended such meeting to secure valid action.

This land was therefore purchased at a price of \$2000.00, the Selectmen securing the money by giving

a note at Souhegan National Bank, signed by the Selectmen.

The payment of this note should be assumed by the Town.

C. S. EMERSON,
H. E. TRENTINI,
WILLIAM W. WHIPPLE,
A. WALLACE WILKINS.

THE NEW

Milford's Public Works System of Town Government

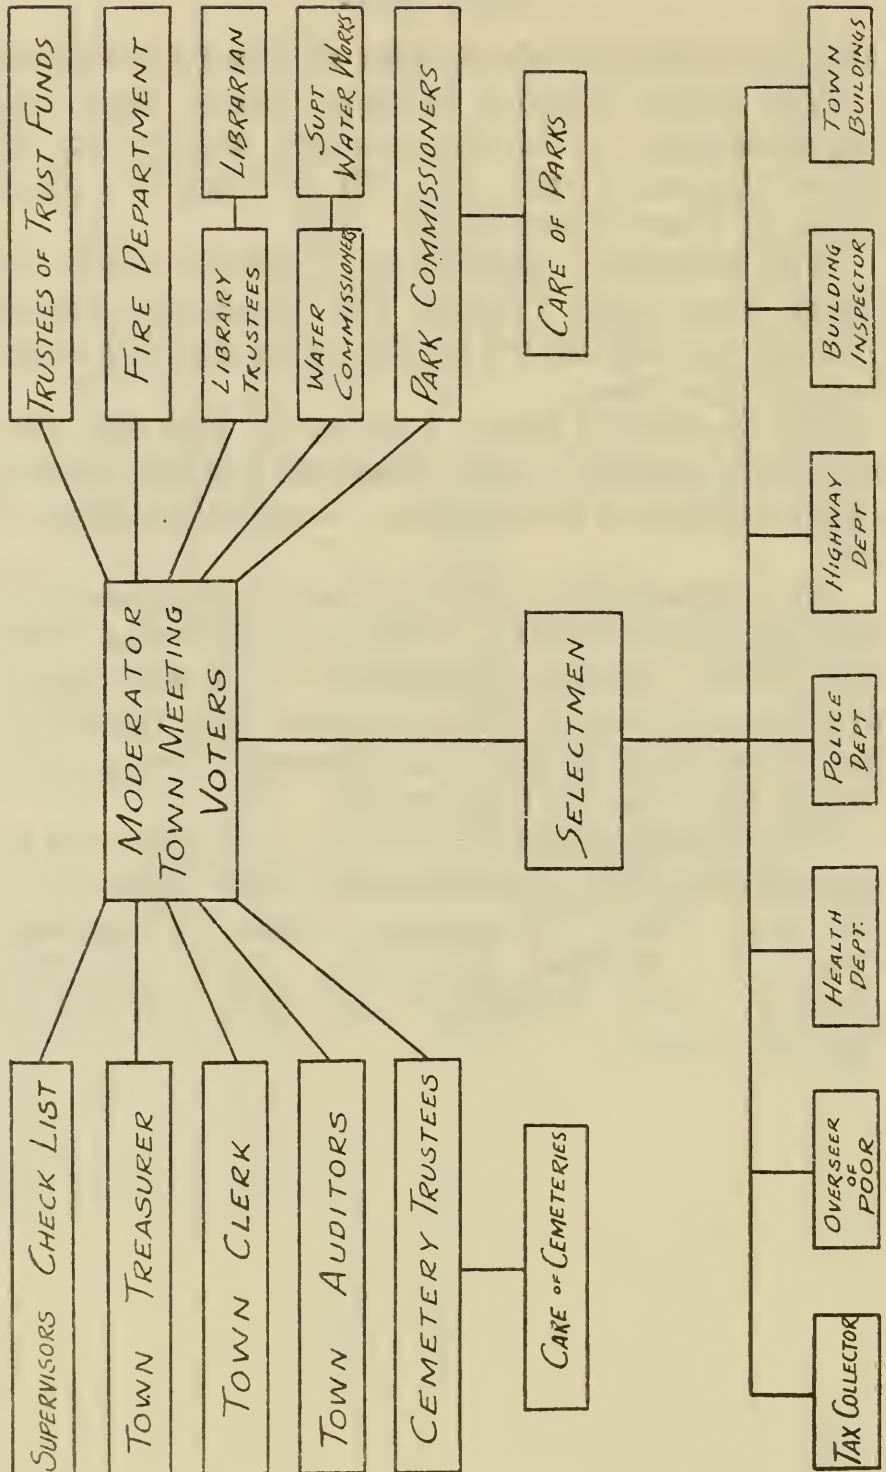

The School District Meeting, School Board and Superintendent of Schools are not included in the above diagram as they are still an entirely separate phase of Town Government.

The Selectmen, Supervisors, Treasurer, Clerk, Auditors, Trust Fund Trustees, Fire Wards and Library Trustees are still elected by the voters and they report back to the Town.

The Boards for Water, Cemeteries, Park and Planning are appointed by the Selectmen and act in an advisory capacity to the Selectmen on policy making matters.

The appointment, direction, and supervision of the Superintendent of Public Works, Tax Collector, Overseer of Poor, Health Department and Police Department now rests with the Selectmen. The Health Officer is recommended by the Selectmen but approved by the State Health Department.

The Superintendent of Public Works has full responsibility for the administration of the Highway Department, Water Department, Sewer Department, Cemeteries, Building Inspection, Parks and Playgrounds, Town Buildings and other departments deemed feasible.

THE OLD

Milford's Former Town Government

The School District Meeting, School Board and Superintendent of Schools are not included in the opposite diagram as they are an entirely separate phase of Town Government.

The Selectmen, Supervisors, Treasurer, Clerk, Auditors, Trust Fund Trustees, Fire Wards and Library Trustees were elected by the voters and reported back to the Town.

The Cemetery Trustees, Park Commissioners and Water Commissioners were appointed by the Selectmen but were responsible to the Town Meeting.

The full responsibility of the Tax Collector, Overseer of Poor, Health Department, Police Department, Highway Department, Building Inspector and Town Buildings rested with the Selectmen. The Health Officer was recommended by the Selectmen but approved by the State Health Department.

**REPORT OF COMMITTEE TO REPRESENT THE
THE TOWN IN MATTER OF WILLIAM Y.
WADLEIGH MEMORIAL LIBRARY BUILDING**

It is extremely unfortunate that at the time of Mrs. Wadleigh's death in 1935 that the securities in the trust fund which she had set up for construction of a Memorial Library Building had depreciated in value below the amount of \$100,000.00 which was the original amount of the trust fund. The terms of the trust provided that under such conditions the trust should be continued in the hands of the Trustee, being the Old Colony Trust Company, until the value of the securities had increased to said amount of \$100,000.00. The State of Massachusetts collected \$5,564.90 as inheritance taxes which had not been contemplated at the time the trust was established.

Under the terms of the trust the fund became available just prior to the beginning of World War II which prohibited all construction of this nature. We had been assured prior to the war that a building such as was approved by the Town could have been built within the amount of the trust but prices on all construction have advanced constantly since that time.

Your Committee has reported for three successive years that in its judgment prices for construction would be lower at some future date and is still of that opinion. We deemed it wise to know just what the present prices were and therefore requested our Architects to ask for bids which resulted in the receipt of seven bids ranging from a low of \$210,700 to a high of \$244,900, to which it would be necessary to add our estimate of \$20,000 for furniture, bronze tablets, fire insurance during construction, balance of architects' fees and unforeseen costs.

The Trust Fund now shows a book value of \$103,573.06 and a market value of \$111,648.81. The

O. W. Lull Memorial Fund shows a balance of \$25,470.07, which if the town approved could be applied toward the cost of construction, as the proposed building contains a memorial section to Col. O. W. Lull. The Wadleigh Fund could be expected to increase \$1,200 to \$1,500 annually and the Lull Fund \$500 annually.

It is the opinion of your Committee that these figures demonstrate the impracticability of immediate construction and indicate that at some future date, possibly three to five years, conditions both as to cost of construction and funds available would materially improve.

Your Committee is also of the opinion that substantial savings in cost of building could be realized by omitting much of the granite trim originally provided and by the Town assuming cost of excavation, grading and seeding of the lot. This, if approved, to be by means of a special appropriation. We are of the opinion that at least \$20,000 could be deducted from costs if these two suggestions were adopted.

With these facts in mind your Committee recommends that no action relative to building be taken at present, notwithstanding the very urgent necessity of providing additional space for the Library, and that the Town delay action in the hope that more favorable conditions will prevail in the near future.

Your Committee recommends its continuance to represent the Town in this matter.

REPORT OF AUDITORS

We certify that we have examined the accounts of the Milford Public Works Department for the fiscal year ending December 31, 1947 and to the best of our knowledge and belief they are correct.

The following accounts were covered by our audit:

Building Inspection	Winter Maintenace
Cemeteries	Lull Memorial Trust
Ash Collection	Parks and Playgrounds
Oiling	Public Works Dept.
Sidewalks	Sewer Department:
Summer Maintenance	Construction
Town Road Aid	Maintenance
Town Buildings	Water Department

Respectfully submitted,
 ROBERT C. CAMPBELL, Auditor,
 FREDERICK S. KIMBALL, Special
 Auditor for this Department only.

**Warrant for Annual School Meeting
THE STATE OF NEW HAMPSHIRE**

To the Inhabitants of the School District in the town of
Milford, New Hampshire, qualified to vote in
district affairs:

You are hereby notified to meet at the Town Hall in said district on the sixteenth day of March 1948 at 8:00 in the evening, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agent of the district.
6. To hear the reports of Agents, Auditors and Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see if the district will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the school board in its annual report.
9. To see how much money the district will raise and appropriate for insurance on school property.
10. To see how much money the district will raise and appropriate for special repairs and alterations of school buildings and grounds, for new equipment, new construction, and furnishings and replacements.

11. To see if the district will authorize the school board and two other legal voters of the district, appointed by the moderator, to act as a special committee to consider the feasibility of forming a cooperative secondary school district and to report to the district not later than the next annual meeting its finding including building requirements, program of studies, capital investment, operational costs of such a district and such other matters as may be deemed material.

12. If the preceding article is adopted, to see if the district will vote to raise and appropriate the sum of not exceeding \$100 to cover the cost of preparation of the report and traveling expenses of the special committee.

13. To see if the district will vote to raise and appropriate the sum of \$500 to be used for athletic and physical education equipment.

14. To transact any other business that may legally come before said meeting.

Given under our hands at said Milford this 11th day of February 1948.

RAYMOND A. DYER,
PHILIP N. BROWN,
ANNIE M. DEANS,
School Board.

BUDGET FOR SCHOOL YEAR—1948-1949

	Voted March 1947	July 1947 Vote	Proposed 1948 - 1949
Support of Schools:			
Teachers' salaries	\$72,042	\$76,292	\$82,450

RAYMOND A. DYER,
ANNIE M. DEANS,
PHILIP N. BROWN,
Milford School Board.

January 26, 1948.

SCHOOL GROWTH

This past year, the school boards in the towns of Amherst, Hollis, Milford, Wilton, Brookline and Mont Vernon have been startled by the increased enrollments in schools. It has been conclusively proven that each community in the next two to five years will be forced to provide additional space for educational facilities for their children.

The impact of this increased school population is being immediately felt in the elementary schools, thus making the school committees conscious of the necessity for building program, either of new construction in their respective towns, or additions to their present plants. The other alternative is to combine their efforts on the secondary level of instruction by forming a Cooperative School District; thus relieving their present buildings of high school pupils and making room for this influx of elementary pupils.

This increase in school population is not peculiar to this area alone. It is nation-wide. There will be more school children in the United States in the next ten to twelve years than ever before. Consequently, this school problem is not temporary, but can be looked upon as being quite permanent. The over-crowding of our present facilities is nothing compared to what it will be in the near future. It will grow from the grade schools, move into the high schools, and pass on to the colleges. The U. S. birth rate this year is approximately 26 per 1000 of population or nearly a 50% increase over the prewar rate. Thus the year 1947 is the highest birth year in the history of the United States.

The following questions have been posed in the aforementioned communities. What can we do? What planning should take place so that our children can have the very best education possible at a price that is within the means of each and every community con-

cerned? With these questions in mind, representatives from Amherst, Hollis, Milford, Wilton, Brookline and Mont Vernon, both laymen and professionals met to think together and to formulate a plan of attack on the problem.

In the course of their discussions, it was brought out that many of the high schools in these areas are too small to offer an adequate, well-rounded program of study; thus only skeleton programs are offered. They cost much more per pupil than similar programs in larger schools, but they have too few teachers to make possible a well-balanced program. The boy who wants to farm, the girl headed toward office work, and the boy preparing for medicine all have the same program. There is little or no music or art education, physical education or guidance. Vocational education is either lacking or offered in one or two fields at the most. Where agriculture is offered boys are often forced to take it in order to fill their programs, whether it meets their needs or not. Where commercial courses are given, all may have to take them to get the units of work required for graduation. Often it is necessary to assign teachers to work in which they are not prepared. Rarely are these small schools good in more than one or two aspects of the program. There are no supervisors or guidance workers to whom teachers can refer problem cases. The equipment is meager. Makeshift laboratories and shops offer small stimulation to either gifted or slow pupils. In most cases the programs in these small high schools are geared to the 20% who go on to college, and the other 80% are offered a program that rarely fits their needs or desires.

After analyzing each town's program of studies, they found some stronger than others, but in most cases it was felt that they were inadequate to do the job that present day society demands. It was further concluded that in addition to meeting needs common

to all, such as emphasizing reading, arithmetic, and other skills needed for learning, a satisfactory school district should provide prevocational and vocational education of varied sorts. It would do this through supervised work experience programs in industry, merchandising, farming, etc. Its program should be broad enough, too, to give ample preparation to those bound for college. It should also provide, in cooperation with other agencies, wherever possible, such services and aids as health clinics, school lunches, libraries, guidance, and audio-visual aids. It should keep in touch with those who leave school, and provide post-high school and adult education. The above could be accomplished only if the school had enough pupils, enough teachers, and enough space so that the services could be rendered at a reasonable cost.

The feasibility of a consolidated school district was brought forth and such problems as size of educational units, transportation, probable building maintenance costs, sites, etc. were discussed, but no conclusions were drawn.

The New Hampshire Legislature in its last session passed an act permitting school districts to combine in a Cooperative School District, thus pointing the way to more effective education. A Cooperative School District may be organized as a cooperative elementary unit; a cooperative secondary unit or both, by majority vote of the qualified voters present and voting at annual or special school meetings in each of the participating school districts. A cooperative board consisting of members from the various school districts shall administer the affairs of the school district. Each school district will bear its proportionate share of capital improvements, such proportion to be determined by the ratio that its equalized valuation bears to the total equalized valuation within the cooperative school district. The costs of operating a cooperative school

district shall be pro-rated among the local districts in proportion that the average daily membership of the local district bears to the average daily membership of the cooperative district. New members may be admitted to the Cooperative School District and local school districts may withdraw, if it is deemed advisable, according to the regulations laid down in the law. Each local district has a part in the formulation of policy and procedure through its representative member, consequently the democratic principles under which our local districts operate are not infringed upon.

To obtain authorization for a more comprehensive study of Cooperative School Districts and to bring this problem directly to the townspeople, it was felt that an article in the warrants of the local school districts would be necessary. Consequently, two articles have been entered in the school warrants to see what action the towns wish to take. It is hoped that the towns will adopt these articles to permit careful study of the school needs in the various towns, thus avoiding any delay.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Milford:

I herewith present my ninth annual report, the twenty-ninth in the series.

Teachers

A list of teachers is printed elsewhere in this report. I need only comment upon the changes. Elsie Railton was the only grade teacher to leave. She changed her name and took a position in her home town, and, incidentally, to live in her own home. Headmaster John R. Clark, after a successful two-year period here, changed from school work to business. Mr. Vladimir Leskowitz transferred to Sanborn Seminary, Mr. Louis Pichierri to Concord, Miss Enes Bazzocchi to Ossipee, and Miss Marjorie Tonks to an out-of-state school. Miss Grace Byrne declined re-election to take another position, the nature of which I do not know.

Teachers' salaries have not kept pace with the increases in other lines. The average salary in New Hampshire of all school personnel, men and women, is now just under \$2,300; while the national average of industrial wages is about \$2,650. This comparison takes no account of the higher professional requirements for teaching. In one of the most progressive countries of the world, the average teacher receives about twice as much as the industrial worker and the training period is much longer. I quote the N. A. M. Congress of 1947—"We have placed in the hands of our school teachers one of the most important tasks confronting us—the job of making patriotic American citizens of our children. Let us set ever higher standards for our school teachers and pay them proper salaries for the important task we have entrusted to them." The C. I. O. and A. F. of L. have expressed similar views.

As the available supply of teachers is limited, I urge you to make funds available to adequately pay

your teaching staff. The New Hampshire P. T. A. President calls attention to the small number of teacher college graduates and urges increased compensation. Retirement, marriage and other reasons may cause a hundred elementary grade openings in this State. Changes may result in a hundred other cases. Finances certainly will not produce teachers if none are to be had, but will help if any desirable candidate is available.

Costs

Trends in school costs are upward. I give you the per pupil school costs for this Union, so that you may know the facts. Whether the upward trend is too little or too much, I leave to your judgment as you compare these costs with the costs of every other item in your living.

Elementary Grades 1-8	1941-42	1946-47 Estimates
Amherst	80.76	103.74
Brookline	55.26	82.43
Hollis	89.70	116.67
Milford	76.95	107.26
Mont Vernon	132.95	154.64
High School Grades 9-12		
Amherst	102.60	245.00
Hollis	124.64	220.00
Milford	77.42	180.00

Pupils

The Promotion of Pupils is an interesting study. Again listing the towns of this Union by number only, the results are:

Town	Promoted to Next Grade	Trial Promotions	Not Promoted
1	83.3 %	5.8 %	10.9 %
2	90.0 %	6.25 %	3.75 %
3	89.4 %	5.3 %	5.3 %
4	88.5 %	4.1 %	7.4 %
5	86.6 %	6.7 %	6.7 %

The above refers to pupils in the first eight grades only. Your town is number 4 on the above list. Last year comparable figures were 89.8%, 6.4%, and 3.8%. There is a slight change in the figures and upon the unfavorable side; however, the change is too small to warrant much comment.

Needs

The Harold C. Bales Auditorium is the busiest place in the institution. It has several needs—repainting, changes in heating, addition of balcony space. Furthermore, we need a music room to relieve this room of music classes. I believe Room 32 could be altered to meet this latter purpose.

Organization plans for 1948-49 are rather incomplete; however, the war-time increased birth rate is expected to show in an enlarged first grade enrollment. Present plans call for an extra elementary teacher next year and possibly changes in the organization of the Laurel School compared with the 1946-47 plan.

The new State-Aid law contains a statement that aid is "for equalizing educational opportunity and improving the public elementary and high schools." It was not intended to reduce the cost to the towns, but to help them meet rising costs and to help them improve their services. In this Union of five towns, there are two school nurses working on a part-time basis. There are three music teachers on full-time or part-time work. There is no art or handwriting supervisor. This Union, through increased State Aid now available, could improve its service by employment of a full-time school nurse, a full-time music teacher or possibly two, an art teacher, and the employment of expert handwriting service on a part-time basis. These items should be union-wide and as a unit. We need integration of efforts without dulling the endeavors of any individual community. There are now too many people concerned with the program to affect too defi-

nite a responsibility. As the superintendent has influence in all the Union, so should the field workers who work under his guidance and direction.

Gratitude

Again I am very grateful to all who have contributed to the success of the school. I pay especial tribute to the teachers and to the School Board. An admirable spirit of cooperation has pervaded all our efforts.

Very respectfully,
HAROLD C. BOWLEY,
Superintendent of Schools.

January 30, 1948.

REPORT OF HEADMASTER

To Mr. Harold C. Bowley, Superintendent of Schools in Milford, New Hampshire, I herewith submit my first report as headmaster of Milford High School:

1. The total enrollment of the school was 353 pupils, January 30, 1948. The following table shows the enrollment from Grades seven through twelve as of that date.

	Boys	Girls	
Grade 7	34	21	55
Grade 8	25	38	63
Grade 9	21	29	50
Grade 10	37	33	70
Grade 11	26	29	55
Grade 12	26	34	60

Total			353

2. Tuition people are as follows:

Amherst	3
Brookline	31
Lyndeboro	13
Mont Vernon	21

Total	68

3. The school activities have continued without much change since the last annual report.

4. Changes in the teaching personnel of the school have already been enumerated in the Superintendent's Report.

5. The graduating class of 1947 and its activities are as follows:

Nelson Barnaby	U. S. Army, Fort Dix, N. J.
Jacqueline Bianchi	Receptionist, Dr. Jackson

Carroll Blanchard	Boston University
Theresa Blanchette	Hillsborough Mills
James Bowen	Cabinet Press
Lilla Bragg	Mrs. Gerald Sharpe
Muriel Bragdon	University of New Hampshire
John Brahaney	The Village Shop
Pauline Bullard	Keene Teachers College
Marie Calvetti	McLellan's Store
Peter Clark	University of New Hampshire
Edith Conley	Dyer's Drug Store
Howard Crooker	First National Store, Milford
Alan Deans	Cabinet Press
Shirley Dillon	American Guernsey Cattle Club, Peterborough
Frances Dutton	American Guernsey Cattle Club, Peterborough
Beverly Fiske	McLellan's Store
Leo Flanagan	St. Anselm's, Manchester
Maurice Flanagan	St. Anselm's, Manchester
Leo Gagnon	Hillsborough Mills
Robert Gagnon	Parker Farms
Margaret Gibbons	Samuel Kidder Company
Warren Hatch	Abbott Machine Shop
Evelyn Howe	American Guernsey Cattle Club, Peterborough
Clifford Howland	Vesper George School of Art Boston
Irving Hull	Parker Farms
Dorothy Jewett	Fisher School, Boston
Joan Jordan	Insurance Office, New York City
Elaine Kittredge	Boston Dispensary
Richard Mace	John R. Martin Company
Edwin Merrill	University of New Hampshire
Arthur Morell	Williams Paint Factory
Grace Newbold	Mrs. Hugh Zibell
Fred Opie	University of New Hampshire

Clifton Willette	First National Store, Wilton
Cynthia Wolffer	Keene Teachers College

6. The freshman play, the junior play, the Kaley prize speaking contest, the operetta, the junior prom, the senior class trip, and graduation exercises were successfully conducted by the several members of the high school faculty, the details of which are well known to most of you.

A successful yearbook was also published under the helping hand of the English Department and Miss French.

7. The school year 1947-48 began on September 3, 1947. Two new phases of the school program were inaugurated at that time—the physical education program (boys and girls) and the music program for the entire school.

Since the primary purpose of our education program in Milford is to develop well-rounded personalities, no emphasis was placed on any single phase of the work offered. Each has its place. Scholastic achievement was emphasized from the very beginning; athletic accomplishment from the physical development point of view was encouraged for all, (compulsory physical education through the tenth grade.) A music program, compulsory for the seventh and eighth graders, elective through the high school, offers a broad curriculum for those whose interests could be helped in this field.

8. The general response of the undergraduate body to the new administration has been gratifying. The teachers have been doing a fine piece of work in their respective fields, and the majority of students have responded in some measure to the leadership and guidance afforded in their several classes.

An outstanding feature of the school is its excellent traffic squad and the quiet manner of passing between classes which is almost entirely pupil-controlled. Milford has reason to be proud of this "over the years" development. There is some real teaching to be found.

There should be more encouragement, interest, and enthusiasm accorded by parents and townspeople to those who achieve high scholastic standing. Today's competitive world demands the best from each, and the time spent in school should be gainfully employed.

9. Our social activities have been constant and well conducted, considering the fact that they are open affairs and not subject to limited school regulation and discipline, but are primarily money-making undertakings for the benefit of the senior class trips.

A Harvest Ball, a Halloween Party, the senior play, the Sno-Ball, and our small canteen ventures and school-sponsored dances have been well attended.

10. The Christmas concert and musical contributions in assemblies have focused attention on the Music Department. The band is making definite progress.

A regular class in music appreciation, carrying a full credit, has been given under Mr. Mazur's direction. Many classical recordings have been obtained through services of the State Library. The usual program of school activities will be continued the rest of the school year.

11. Several fire drills have been held since the beginning of the school year. During favorable weather, regular drills were held.

Fire Chief Casey made a special trip to the school during Fire Prevention Week with the booster-pump and demonstrated the art of extinguishing fires for the student body.

The Junior Business Training Class made a special trip to the fire look-out tower during this week. Fire extinguishers were located and checked as part of the work of the week.

12. Regular trips have been conducted throughout the community for closer correlation of school work and community, in conjunction with several classes: civics — junior and senior high school, shop (Portsmouth,) English, history and civics, (Museum of Fine Arts,) home economics, United States History (both the House and Senate at Concord,) junior business training, (United States Post Office,) and the math class, (Massachusetts Institute of Technology.

13. Both basketball teams are leading the Monadnock League. The respective coaches have been trying to develop, not only competent teams, but young men and women of such character as will best reflect Milford citizenry.

The J. V.'s have had a successful season under the direction of Mr. Kemp. The seventh and eighth grad-

ers have been meeting with Mr. Camp. Milford seems to be well-endowed with potential material for the development of athletic teams.

The Cross-country Team has successfully won first place in the Monadnock League. We were represented by them at Durham. Arthur Hendrickson represented Milford in the New England Cross-country championship run.

14. The basketball teams of 1946-47 played complete schedules. The boys participated in the Townsend Tournament. The boys won their own Monadnock League.

The track team competed at Exeter and at the State University. Creditable performances were turned in by the untutored representatives of the school.

The boys' baseball team, coached by Mr. McBride, won the Monadnock League championship in the play-off against Conant.

15. Clubs at the school have been somewhat curtailed for the fall term. This was intentional. The Arts and Crafts Club, the F. H. A., Student Council, and the "M" Club are the nucleus about which such organizations are being developed.

Mr. Camp has a very active driving club from which the students are being given an opportunity to experience motor vehicle training with a dual control car, supplied through state aid and Draper's Garage.

16. Any report to the public concerning the educational program would be incomplete if it did not consider some phase of the health report of the school. Physical examinations were given to all students from the seventh through the twelfth grades by the school physician, Dr. Jackson, on September 17 and 18. The hearing of all students has been tested and extensive work with eye testing has been given to the majority of the students by Miss McCormick utilizing the tele-

binocular apparatus owned by the Milford School District.

Hot noon lunches are served daily at the elementary school and many high school people have taken the opportunity to get a nourishing noon lunch at a minimum expense.

Physical education classes for both boys and girls have resulted in the development of coordinated minds and bodies in a surprisingly large group. The classes, conducted out of doors whenever possible, otherwise indoors, have been very popular; and it is gratifying to note the material progress made by many boys and girls who have been enrolled in these classes, at least twice a week. Cleanliness of body, plus proper attitudes toward sports and games do definitely contribute to the development of better American boys and girls.

Insurance against accident has been offered to all high school students at a low cost of 50 cents per pupil. Surprisingly few have taken this insurance which protects them against injury incurred in the athletic program.

17. Much work continues to be done with the visual aids. The school belongs to the University of New Hampshire film center, and at least two movies a week have been shown in some department in the school. Miss O'Hare clears all film orders and has been responsible for booking such visual aids as are used by the school.

This work has been supplemental to regular class work and has not taken the place of, but has augmented usual class procedure.

18. The guidance program of the school has been, so far, mostly group guidance. Each member of the senior class, however, took the Kuder Preference Test, given by the Fisher School representative and had an

opportunity to discuss individually, with either Mr. Smith or the headmaster, the results of the test.

Vocational tests will be given to all who graduate. Pupils should be encouraged to think, and talk, and act upon their choice of vocation. A variety of work experience is of tremendous value to all.

Effort has been expended in directing the educational guidance program for the seventh and eighth grades. The vocational guidance will gradually become more effective as the director and pupil become better acquainted. This same holds true for the personal and social guidance so necessary in any complete program.

Most group guidance is given by the individual teachers in their respective classrooms. Individual guidance has been given by those (real teachers) who appreciate the confidences expressed for their opinion by those with whom they come in contact. The whole program should be gradual in order to be most effective. There is no substitute for confidence on the part of those who **seek** guidance.

19. It is hoped that a subtle change will be evident in the general **esprit de corps** of Milford High School. The governing philosophy of any school must be lived in order that it may be most effective. The majority of students have responded in a very fine way to the suggestions offered.

The cooperative spirit of the townspeople has been good, but active interest would be welcome by all concerned. The school and the community must work in and through each other. The school tries to do its part: social activities, athletic activities, and programs undertaken for the stimulation of such cultural attributes as are of the highest value, plus the over-all development and training, and the indoctrination of Democratic principles which have been sought that most effective teaching would result.

The making of street signs, a salt sprayer, tables for the elementary school, and various small jobs to "help the other fellow" are all a very real part of the education program.

Financial aid by the Keyes' Fund, (Basketball Clock,) the furniture loans by Fitton, (plays,) and parents who have loaned their furniture, cars, and time, are all doing their share to help the school program.

The school has been afforded an excellent publicity program, not only through the local paper, (the Milford Cabinet,) but also through the neighboring "dailies." Many of our teaching personnel have carried Milford's name favorably throughout the State.

In closing this, my first report, I would indeed be remiss were I not to acknowledge the tremendous help given to the school by those who have so long faithfully served it. The newer faculty members are each contributing in no small way to the well-rounded program now being conducted. No teacher has refused to do more than his share whenever asked, and suggestions for improved functional operation have been many.

There is much to be done, for the school should be a focal spot of interest of the entire community of Milford. The school is indebted strongly to those who have in any way contributed to the development of the education program. For most effective work, each must have a sense of belonging which can only result from a real interest and participation in the program.

The teachers are doing their job. They want to belong and they want to continue to work in Milford. This can result only as it is possible for them to maintain a status quo commensurate with their position. They do appreciate the situation and they do respectfully request tangible acknowledgment.

As a final word, may we all in Milford High School express our appreciation to the School Board, Super-

intendent Bowley, and to each and every one who has in any way contributed to the development of Milford High School.

Respectfully submitted,

EBEN B. HUTTON,
Headmaster.

GENERAL STATISTICS FOR SCHOOL YEAR 1946-1947

Number of different pupils registered during year:	
Boys 346; Girls 371; Total	717
Enrollment by grades:	
I-85; II-51; III-56; IV-66; V-51; VI-44	
VII-61; VIII-48; IX-71; X-63; XI-63;	
XII-58; Total	717
(In addition to this number, 32 pupils were previously enrolled in some other N. H. school, making a total enrollment in Milford 749 for the year.)	
Number non-resident pupils in high schools	61
Number non-resident pupils in elementary school	12
Average membership in high school (grades 9-12)	242.68
Per cent of attendance in high school	95.37
Average membership in Grades 1-8	354.03
Per cent of attendance in Grades 1-8	94.10
Number not absent nor tardy during year	52
Aggregate number of tardinesses (last year 887)	632
Number of sessions in all schools	350
Number of School Board meetings	15
Number of visits made by School Board members	3
Number of visits made by Superintendent	353
Number of visits made by citizens	410
Teaching positions: High 17; Elem. 14	
(Part-time teachers included—1)	31

PERFECT ATTENDANCE

Five Years: Virginia Wasto.

Three Years. Joyce Anderson, Marie Calvetti, Elaine Kittredge.

Two Years: Carol Tonella, Irene Fessenden Robert Ross, Shirley Bohonan.

School Year 1946-1947

High school building: Muriel Bragdon, Marie Cal-

vetti, Alan Deans, Elaine Kittredge, Virginia Wasto, Joan Anderson, Marian Blanchard, Doris Corey, Barbara Deans, Mabel Durrell, Doris Jones, Carol Tonella, Janet Anderson, Charlene Bohonan, Joan Comolli, Janet Falcetti, Irene Fessenden, James Heald, Arthur Comolli, Lawrence Corey, Phyllis Powers, Doris Busch, Marjorie Hardy, Geraldine O'Connor, Robert Ross, Henry Stinson, Joyce Anderson, Donna Card, Elizabeth Dyson, Helen Franklin, James Forsyth, Andrea Gagnon, Betty Ann Hutchinson, Donald Hutchinson, Arthur Martin, James Plante, Geraldine Watson.

Grade V: Dolores Calvetti, Elizabeth Haskell, Barbara Metcalf, Guy Franklin, Marion Stinson, Shirley Bohonan.

Grade IV: Mario Boldini, Joan Rand, Marcia Erikson, Allan Wiswell, Jane Lorden.

Grade II: Alyce Nichols, Gerald Little, Janet Tonella.

Grade I: Gerald Liljeberg.

REPORT OF HEALTH SUPERVISION 1946-1947

Dr. Norman M. Jackson, Examiner

Esther E. McCormick, R. N., School Nurse

The total number of children examined: 536

The following defects, treatments, and corrections
were reported:

	Defects	Pupils Receiving Treatment	Corrections
Underweight	31	7	
Defective Vision	54		31
Defecting Hearing	42	9	
Defective Teeth	340		310
Diseased Tonsils	21		21
Defective Breathing	21		21
Adenoids	21		21
Enlarged Glands	21		21
Defective Speech	1	1	

Parents were informed of all of the above cases.

Diseases reported:

Chicken Pox	62
German Measles	107
Whooping Cough	9
Pediculosis	19
Skin Diseases	23

RETURN OF SCHOOL CENSUS September 1947

Of the Deaths in town in 1947, 33 were carried out of town for burial: Amherst, 9; Antrim, 1; Bedford, 1; Bloomfield, Vt., 1; Boston, Mass., 1; Brookline, 1; Cambridge, Mass., 1; Candia, 1; Cleveland, Ohio, 1; Conway, 1; Everett, Mass. 1; Fitchburg, Mass., 1; Gilmanton, 1; Goffstown, 1; Hudson, 1; Nashua, 2; New Ipswich, 1; Wilton, 6; Winchester, Mass., 1.

Twelve were brought from away for burial. Some were long ago residents.

Of the 70 Deaths recorded, 2 were between 90 and 100, 16 between 80 and 90, 18 between 70 and 80, 12 between 60 and 70, 8 between 50 and 60, 6 between 40 and 50, 4 between 30 and 40, 1 between 20 and 30, and 3 under 20.

Of these Deaths 39 were male and 31 female. One or both parents of 23 were born in foreign countries.

The Vital Statistics of a town are one of its most important records, not merely for today but for generations to come. If everyone would see to it that the records of their own families were fully and correctly filled out on the Marriage, Birth, and Death certificates when handed in, it might be of great help to us in making out the records of today.

I hereby certify that the foregoing returns are correct according to the best of my knowledge and belief.

DONALD C. BRUCE,
Town Clerk.

SUPERINTENDENT OF PUBLIC WORKS

Salvatore P. Grasso

February 11, 1948

Board of Selectmen
Milford, N. H.

Dear Sirs:

The Milford Public Works has the honor to submit herewith the second annual report of its activities and accomplishments.

During the year 1947 the organization has continued to grow and develop effectively and we look forward to increasing service to Milford.

The activities of the various departments, with recommendations for the coming year, are presented in the following report.

Respectfully submitted,

SALVATORE P. GRASSO,
Superintendent of Public Works.

INTRODUCTION

The Milford Public Works has completed its first full year of operation. The departments that had been directed to come under Public Works have been totally consolidated. Now that consolidation is complete the organization can work towards the major objective of complete records, economic operation and maximum service to the community.

Although the physical work of bringing these departments under one head has been completed, much work remains. It will be some time before a complete set of records for all departments can be compiled. In addition this office is working to establish a uniform operating policy for all departments. Definite policies are necessary to guarantee a uniform and efficient solution to the individual taxpayer's problems.

The old Milford Water Works office, location of the first Public Works office, was much too small. In January of 1947 we moved into new quarters. In order to get a roomier office the following moves were necessary: Public Works moved into the courtroom, the Selectmen into the Public Works Office and the Court into the Selectmen's office. This shift resulted in more suitable locations for all concerned.

The regular Friday night meetings with the Selectmen continue to be lengthy because we are still working on the improvement of the policies under Milford Public Works. This board of Selectmen is to be highly commended for the time, effort, patience and interest that they are contributing to the affairs of the Town of Milford.

The reports on each individual department under Public Works will be found on the blue insert.

ANALYSIS OF 1946 AND 1947 TAX RATES AND APPROPRIATIONS

There has been much discussion this year of the effect that Public Works has had on Milford Tax Rates. Because of this comment a complete study has been made of the appropriations and their effects on the tax rates for 1946 and 1947.

The results of this study are presented in this report with some concluding observations. The taxpayer can reach his own conclusions by studying the table that compares the years 1946 and 1947. This table is based on the money appropriated each Town Meeting which are the figures used for calculating tax rates. The column showing "tax per \$1000" shows what portion of the 1000 dollar rate in dollars is attributed to each appropriation. The column labelled "Tax per dollar" shows what happened to the tax dollar.

Total taxable valuation in 1947 increased by nearly a half million dollars over the 1946 taxable valuation. This increase would tend to reduce the rate. The money that was given the schools and town by the State is already considered in the 1947 tax rate and in no way changes the results as shown.

Please refer to the blue insert.

A glance at the totals show that the tax rate per \$1000 increased from \$33.50 in 1946 to \$39.00 in 1947; \$23.48 of the 1946 rate was due to monies raised in Town Meeting and \$10.02 was due to monies raised in the School Meeting. Of the \$39.00 tax rate in 1947 \$23.61 was due to monies raised in Town Meeting and \$15.39 due to the School Meeting. Thus the \$5.50 raise in tax rate per \$1000 is made up of 13 cents raise by monies appropriated in Town Meeting and a \$5.37 raise by monies appropriated in the School Meeting.

Carrying the conclusions to a study of the tax dollar, 70 cents of the tax dollar went for appropriations made

in Town Meeting in 1946 as compared to 60½ cents of the tax dollar in 1947. This shows a decrease of 9½ cents from 1946 to 1947.

The schools accounted for 30 cents of the tax dollar in 1946 and 39½ cents in 1947. The water extensions had no effect on the tax rate and the Sno-Fighter accounted for 64 cents of the \$1000 rate or 1 64/100 cents of the tax dollar.

Because there has been so much comment and discussion on what Public Works has done to the taxes, the study has been carried one step further, segregating the Public Works from all other appropriations and showing how it has effected the tax rate and the tax dollar.

Appropriations, such as garbage, town dumps and Wilton Water Works which have been added to Public Works during the past years have been omitted because they were not a part of Public Works for the full period of comparison.

By looking at the totals it can be seen that in 1946 Public Works was responsible for \$8.32 of the \$33.50 tax rate, whereas in 1947 it was responsible for \$7.76 of the \$39.00 tax rate. Thus in spite of the Sno-Fighter, Public Works itself dropped 56 cents. In terms of the tax dollar it dropped 4.89 cents.

A graphical representation of the 1946 and 1947 tax dollars is shown in the following diagrams:

BUILDING INSPECTION

Building permits were issued for the erection, additions and alterations of buildings in accordance with Milford's Building Ordinances. Although these ordinances were improved upon in the 1947 Town Meeting, there is still opportunity to mould them into a more suitable building code.

Several instances this past year have shown the need for some simple form of zoning ordinances. Aside from the building code, there is no satisfactory provision for prohibiting certain types of buildings or commercialization in certain areas. The building code can control new building to a certain extent and can refuse granting a permit for a new building in an undesirable location. However, should someone buy a house in the center of a residential section and convert it to a twenty-four hour garage and service station there is nothing in our ordinances to prevent this, in spite of the neighbors'

possible disapproval. On the basis of these facts it is my recommendation that a committee be appointed to look into this and to set up a simple yet effective and workable zoning ordinance for the Town of Milford.

A statistical report of the permits issued during the past year follows:

BUILDING INSPECTION

Permits Issued	No.	Approx. Cost	Fee
New Dwellings	11	\$ 58,300.00	\$ 40.50
Additions and Alterations to Dwellings	13	14,000.00	17.50
Garages	11	6,850.00	11.00
Additions and Alterations to Non-residential Buildings	21	50,375.00	44.50
Small Buildings	3	1,200.00	3.00
Oil Tanks	3	8,000.00	6.50
Totals	62	\$138,725.00	\$123.00
Cash Income		\$122.50	
Less 1946 permit paid in 1947		3.00	
Balance		\$119.50	
Add outstanding 1947 fee		3.50	
Total		\$123.00	

CEMETERIES

The work in the Milford Cemeteries has been that of regular maintenance which involves keeping the cemeteries looking neat. This has been supervised by Antimo Carpentieri who continues as cemetery foreman.

The greater part of the cemetery expenditures are taken care of by earnings. The remainder is supported by an appropriation from the town.

The financial statement shows an over-expenditure for the past year. This is attributed to the large amount of mowing, partly due to wet weather, that was neces-

sary to keep our cemeteries looking well. Thus the labor item was higher than in previous years and responsible for the greater part of our over run. Some of the 1947 earnings are outstanding and will come in as income in 1948. The amount received from the Trustees of Trust Funds was less than last year's due to a change-over in investments. It is expected that this source will produce more income in another year.

Four new lawn mowers and a power grass shear were purchased. This power grass shear will cut grass close to the curbs and monuments, thus reducing the amount of hand trimming necessary to keep the lots looking trim.

Several new lots have been staked out in Riverside Cemetery, making enough available to take care of the coming years' demand.

Considerable work remains to be done in order to bring the cemetery records to the point where they are complete and readily available. In addition to the records there remains several policies to be established for the purpose of insuring consistent operation of our cemeteries. These problems are being gradually met and solved.

There is no major work or project to be planned for the coming year and it is recommended that the work continue as routine maintenance.

The financial statement of the department follows:

HIGHWAY DEPARTMENT

The highway department is the work horse of Milford Public Works. Its men and equipment are used to accomplish the work for all public works excepting the Water and Sewer work.

The buildings housing the department have been improved and the Walter Snow fighter and KSB8 International truck have been added as major items of equipment. This has improved the department but more needs to be done before we can consider it to be a well housed and well equipped department.

The activities of each branch of this department are discussed in the following reports.

ASH COLLECTION

Even though there is no separate appropriation for ash collection, this work is segregated as a branch of the highway department because the regular highway crew handles these collections.

The policy of requiring payment in advance was started in 1946 and has continued to work out well. Now all ash collection customers are paid up accounts, and the success of this policy can be shown by the following ash collection income table.

Year	Income
1944	\$ 66.00
1945	87.00
1946	259.50
1947	137.50

In the 1946 annual report a cost analysis was presented showing that the actual cost of ash collection per barrel was \$5.29 as compared to the charge of \$1.00 per barrel. On the basis of this study it was recommended that the charge per barrel be made \$5.50 rather than the established \$1.00 for 1947-1948 season. This recommendation was approved by the Budget Committee and

the Board of Selectmen, and the rate of \$5.50 per barrel established.

This jump in the rate from \$1.00 to \$5.50 brought a string of protests to the Public Works Office. This office is quite willing to do as the Town Meeting decides. Should the voters want to collect ashes for a fee of one dollar or for no fee at all, then an appropriation must be made for ash collection. If no appropriation is made for ash collection then the Town Meeting must decide which appropriation is to pay for ash collection and raise that appropriation accordingly. Until such time as an appropriation is made ash collection must be made on a paying basis.

In addition to the stream of protests, the \$5.50 collection rate resulted in the following; it reduced the number of ash barrels collected from 138.5 in 1946 to 25 in 1947. It reduced the collection time from one full day to two hours and reduced the loss from \$592.85 in 1946 to \$16.30 in 1947.

The cost analysis for 1947-48 is based on two hours for each collection for a period of twenty-one weeks and is as follows:

Labor, 42 hours	\$100.80
Truck, 42 hours	42.00
Published notices	11.00

Total cost	\$153.80
Income	137.50

Loss	\$ 16.30

OILING

Oiling of roads was done entirely with town owned equipment. Thus the appropriation was stretched a little farther than has been possible in past years. In spite of this, however, some of our roads had to go un-oiled.

Each year the Town of Milford has been adding more oiled roads, yet the appropriation for oiling has remained the same. This has resulted in trying to stretch the same amount of money into maintenance of more and more roads each year.

In keeping with the recommendation of last year's report, the oiling of new roads was kept at a minimum with most of the oil going into maintenance of our already oiled roads. The only newly oiled road was the Armory Road and this will need another coating of oil in 1948.

The Ponemah Hill and Melendy Roads have been on the oil schedule for the past few years and a portion of each of these two roads should be oiled this coming year. Except for these two roads, the remainder of the oil should again go to maintenance of our present system. Several of our town streets will need oil this year in order to salvage them. Some are very close to the beyond-salvaging stage.

Union Square was given a coat of oil last year and Union Street was resurfaced with a heavy coating of oil.

Elm Street and Nashua Street have many cracks and need treatment. In addition to these two principal streets, many of our other streets are seriously in need of oil.

There were complaints about the mess and unnecessary oiling of Union Square. It is certainly messy when roads are oiled but it is necessary and there is no good substitute for the procedure.

A good example of what a coating of oil will do can be observed on Nashua Street. It was intended to oil Nashua Street from High Street to Union Square. The money ran out so that only half the width of the road received its coat of oil. Inspection of this piece of road shows the beneficial results of an oiling program.

The area near the Milford Coal and Grain Company and the Milford Bakery was given its final coat of oil

at the expense of the property owners. This has definitely improved the area adjacent to our road.

There was an over-expenditure of \$358.44 in our oiling program this year. The major reason is that we tried to cover as many roads as possible in order to save all of the road we could. In spite of this there were some pieces of road that did not get the necessary treatment and this spring may well see these roads broken up.

The financial report of this appropriation follows:

SIDEWALKS

The sidewalk program was completed as planned. There were only two major construction projects. One was the new sidewalk on Prospect Street and the other the Lincoln Street sidewalk.

The Prospect Street sidewalk was placed on the right hand side of the street. This was necessary because we are utilizing our right of way line on the left hand side as travelled roadway. A sidewalk on that side would seriously interfere with the width of our present roadway. The sidewalk was completed from Marshall Street to Webster Street. Sometime this sidewalk should be continued up the hill.

The Lincoln Street sidewalk was originally planned on the left side as you leave South Street. However the reconstruction of a retaining wall on that side prohibited this construction, and the sidewalk was built on the right side. Because of a large tree that must eventually be taken down the sidewalk did not go all the way to the bridge. This Lincoln Street sidewalk was continued around the corner on to South Street to join the South Street sidewalk. Donald Dunklee gave the town land on the corner, making possible a wider and more desirable intersection.

In addition to these two projects the regular sidewalk maintenance of repairs and hole patching was carried out, and the special project of eliminating the double steps at the Economy Store on Nashua Street was carried out.

This coming year attention should be given to constructing a sidewalk on the new road on Mont Vernon Street, resurfacing the sidewalk in front of the Town Hall, resurfacing the left hand sidewalk from Union Square to Clinton Street on South Street, and narrowing the sidewalk on Middle Street.

Many of our sidewalks in town are in a bad state of

repair and diligent maintenance will be necessary to bring these back to serviceable condition.

We were fortunate to acquire some curb stones from Robert Pease last year and we did salvage all we could from the South Street and Mont Vernon Street road jobs. Thus we do have a little curbing on inventory.

The sidewalk construction policy as presented in last year's report is being followed and works out very well.

The financial report of this appropriation follows:

STREET CLEANING

The practice of hiring a regular street cleaner has been continued and works out well. He has performed his duties well and we have received several compliments on the appearances of Milford streets.

Early in the summer our new trash baskets arrived. We have nine new baskets. These were donated by the Milford Lions Club and the Milford Civic Club. Their use has been of assistance to the street cleaner and they have improved the appearance of our business district. The regular highway crew emptied these baskets periodically.

The street cleaning is financed from the highway maintenance appropriation and is carried on from late spring until the first snow.

HIGHWAY MAINTENANCE

The recommendation made in last year's report that summer and winter maintenance be changed to highway maintenance and snow removal has been carried out. Highway maintenance constituted the major portion of the highway department's work. As in past years, highway maintenance included the grading and shaping of gravel roads, cutting brush, installing and maintaining culverts, patching our surfaced roads and streets, regravelling and improving Class 5 roads, with town road aid, and cleaning and maintaining catch basins which control our drainage.

Our equipment problem was somewhat improved over that of a year ago. The addition of the KSB-8 International dump truck helped a great deal, both in this work and in snow removal. The Walter Snow fighter was used during the summer to haul sand and gravel. This was done primarily to acquaint the driver with the vehicle and will be the exception rather than the policy. The International A Tractor has proved to be a valuable

piece of equipment. We have been able to use it to keep the parks and cemeteries mowed and to cut the roadside brush. With it we should be able to eventually keep our country roads well brushed out.

Road grading is still being done with a rented grader. This puts us at a disadvantage because when we need it the grader may not be available for rental. However, it is still my suggestion that the town get along without a grader until we have acquired equipment that is more essential.

There is a very great need for something to load sand and gravel. The town owns an excellent gravel bank at the dump on the North River Road. It is not economical to load this gravel by hand or to rent a power shovel every time that we need gravel. We should make every effort to add some kind of a loader to our highway equipment this year.

The work in this department was totally maintenance during the past year. This varies from thawing out culverts and patching holes in the spring to repairing washouts such as the one that occurred on Amherst Street at the Catholic Church during a heavy rain.

The financial record shows an over-expenditure for highway maintenance. Most of this can be attributed to the fact that this is the first year of the separation of highway maintenance and snow removal. The department tried to operate highway maintenance for the entire year with an appropriation that had previously covered only summer maintenance.

It is possible that the department outdid itself in trying to correct all defects in the highways that were brought to our attention. This one feature alone adds considerable to the expense, yet the essential feature of a good highway system is to keep all roads and streets properly maintained and bad places promptly repaired.

Two unplanned projects came up. One was preparing the Stable Road so that it was passable, the other

was the start of the work to make Chestnut Street from Orchard Street to Souhegan Street more passable.

In addition, the insurance item which came late in December added to the over-expended amount.

A great deal of work lies ahead. The routine maintenance work is needed every year but in addition to this improvement should be made. Projects such as the one on Stable Road and Orchard Street must be completed. Foster Road should be re-opened from the four corners on Federal Hill to the Ponemah Hill Road. This would serve to tie in the two roads. An inspection of this road last summer showed that there is a good base for gravel and that the culverts are operating. Opening this road, which has never been officially closed, will involve cutting the brush and gravelling, thereby facilitating the snow plowing problem.

Permission has been granted us by the adjacent land owners on the Richardson Road to remove the stone wall. This work should be started and completed because it would eliminate the annoying problem of drifted snow.

It is also hoped that a program of road widening can be started. Many of our roads are very narrow and two cars can hardly pass even in normal summer driving.

It is not expected that all of the above projects can be completed in the coming year, but it is hoped that they can be started and a regular development program followed. The amount of this work accomplished each year will vary with the amount of money appropriated.

The financial report of this appropriation follows:

TOWN ROAD AID

T.R.A. is the money spent on Class 5 highways which are the roads outside of the compactly settled area of the town. The work is done with our own equipment and men supplemented by rented equipment.

This year most of the T.R.A. work went in the construction of what is now officially known as Young Road. The construction of this road was made possible by the granting of a forty-foot right of way by Harry Melendy and Mrs. Mary Young. It connects what is now called the Osgood Road to the Ball Hill Road, eliminating two dead-end roads. In addition to making a loop it also makes it possible now to get up Ball Hill from the Osgood Road, thus avoiding that climb under winter driving conditions. This results in more efficient and rapid snow plowing.

Under this T.R.A. program the upper end of Spaulding Street was scarified and gravelled and a good portion of the Ponemah Hill Road. The Federal Hill Road beyond the Holiday House was gravelled.

SNOW REMOVAL

General

This differs from what was called winter maintenance in 1946 because it takes in only the work that comes under the snow removal classification. It still does not present a true picture of the snow removal costs because in it is reflected the costs of maintaining equipment that is used for other purposes. An example of this is the town trucks. Until such time that we may have an appropriation for equipment maintenance and replacement the above will be true for all appropriations.

Sanding and Salting

In the years gone by it was often necessary to use hired trucks to assist in sanding and salting, but the past winter this work was all accomplished with town-owned equipment. This was possible because of the new International truck and because the Water Department's truck was pressed into service when necessary.

Both sand and salt were used quite liberally and the department has been prompt in answering calls for sand.

Roads and Streets

The removal of snow from the town's highways has constituted a major problem in the years past. This last winter, however, we have felt that we can do the job well and that we can handle most any storm that we get. The frequency of storms and the amount of snow would have been more than discouraging a year ago. Yet this winter it was handled promptly and effi-

ciently and the compliments have far exceeded the complaints.

The purchase of the Walter Snow fighter and the KSB-8 International truck has been largely responsible for the major improvement in snow plowing.

As in 1946, the town was divided into five districts and a plow assigned to each district. Rather than doing all the work with rented trucks, it was necessary to hire only three. The plans were to do all of the plowing and pushing back with our own equipment but the frequency of the storms made this impossible and each unit had to widen its own route. Whenever the time element permitted the town equipment was used for the widening.

The International A. tractor was used for cleaning snow out of intersections and the results were excellent. This permitted the larger trucks to go along their routes, thus saving some plowing time.

The old tractor was not brought out during the last part of 1947. It was well after the first of the new year before it was brought out to assist in widening and to run for maintenance reasons.

The Walter Sno-Fighter has more than proved its value this past winter. It has done all that was demanded and we have yet to load very much ballast or to use chains. Its speed in covering the town has proved invaluable during those storms that ended with drifting snows.

Sidewalks

The plowing of sidewalks still remains a problem. It was thought that with some planning and a system that Milford's major sidewalks could be kept open to the satisfaction of all concerned. This last winter has shown that this is not possible. Our streets are not wide enough to accommodate the snow plus a travelled highway, plus a travelled sidewalk.

Horse-drawn sidewalk plows were used for the

plowing that was done. The tractor was tried and used on some streets but it did not work out as well as was hoped. It will plow the sidewalks when the quantity of snow and the frequency of the storms are not as great as they were this last winter. In an emergency it can be pressed into service for plowing roads. We did find that it did an excellent job of plowing intersections and that it was useful when cleaning out Union Square. It was also used to plow the two skating rinks.

This is a good time to remind the critics of the tractor as a sidewalk plow that it was stated both in the Town Meeting and the report of last year that the primary purpose of this tractor was for mowing roadside brush. Snow plowing was and is an off-seasonal use for this tractor. At no time were the people of Milford promised that this was to be an answer to sidewalk plowing.

It is well at this time to quote our policy from last year's report. Whenever possible all sidewalks will be kept open. The size of the storm will more or less dictate the method of handling the sidewalks.

General

The question of carrying the snow away from the business section and the Oval still makes a very interesting topic. This winter the business section has been cleaned effectively after each storm but the pile on the Oval is quite high. The same holds true this winter as did last winter and that much comment is made by local citizens concerning this snow on the Oval and it still would be nice to know whether the townspeople favor carrying the snow away at considerable expense or leaving it on the Oval.

The snow plowing policy has been made more definite than ever before and the town's responsibility clearly established. In 1946 no plowing was done on private property within the compact area, but in 1947 the policy was extended and this winter no private

property has been plowed. This policy worked out very well. In previous years there was no set rule and nobody knew where the town's responsibility started or ended. This office is in total agreement with the above policy and had hoped that there would be an expression of the voters in the 1947 Town Meeting. Because there has been some discussion of this policy and because there will be an article in the 1948 warrant some facts are repeated from the 1947 report. Should the townspeople see fit to change this policy it is hoped that the new policy will be definite, leaving no ambiguities. This office will do its utmost to carry out the decisions of Town Meeting.

The advantages and interesting points of plowing only the town's accepted roads and streets may be enumerated as follows:

1. The town's snow plowing responsibility is definite and exact.

2. All townspeople and taxpayers receive equal benefits, eliminating the stigma of favoritism in snow plowing.

3. The town roads and streets are maintained in the summer time and are of sufficient width to permit a snow plow to pass over them without endangering equipment or the loss of time.

4. Road and street plowing equipment is too big and bulky for the plowing of individual driveways.

5. With the equipment and appropriations available it is a task to keep our travelled ways open, say nothing of private driveways.

6. It eliminates the common complaint, "so and so's driveway was plowed out, why can't you plow mine?"

7. Private roads and driveways are generally too narrow for town equipment and require so much turning around that they are time consuming.

8. If a road is used by the public to the extent of requiring plowing, it should be an accepted town road

so that the town can properly maintain it for the safety and convenience of the public.

9. As a general rule these private roads expect priority in plowing and do not want to wait until the travelled ways are opened.

10. If roads and driveways other than accepted town roads or streets are to be plowed a list showing the order of plowing must be prepared because everybody wants to be first.

11. Some local taxpayers make a business of plowing private driveways and can get to these driveways long in advance of the town's equipment. Should the town enter private competition?

12. The town is liable for any damage done by plows on private property and in one case a few years back had to repave a driveway.

13. The likelihood of damage to the town's equipment is increased many times due to the width and condition of these private roads and areas.

14. Last but not least, who will decide which taxpayers must open their driveways themselves.

It is apparent from the above that the feelings of this office are strongly in favor of the policy established because it feels that it is the fairest policy for the individual taxpayer and best for the town.

In spite of favoring this plan this office will do its utmost to carry out any plan set up by the people at Town Meeting.

Records that this office has been able to gather show the following snowfalls for Milford:

Winter	Number of Storms	Inches of Snow
1932-33	11	68
1933-34	18	99
1934-35	17	56
1935-36	15	62
1936-37	15	44
1937-38	16	45

1938-39	16	59
1939-40	16	69
1940-41	13	65
1941-42	10	37
1942-43	12	39
1943-44	9	32
1944-45	16	57
1945-46	12	80
1946-47	10	58
1947 to Feb. 11, '48	15	78

The months of December 1947 and January 1948 have been the worst on record, showing the following:

December 1947	5 storms	37 inches of snow
January 1948	8 storms	37 inches of snow

The fifteen year average for each month as given below shows that December and January were very unusual months.

Month	15 yr. aver. inc.
November	9 inches
December	14 inches
January	20 inches
February	20 inches
March	11 inches
April	8 inches
Year	67 inches

A comparison of the years 1946 and 1947 on a calendar basis shows 64 inches of snow in 11 storms in 1946 against 81 inches in 13 storms in 1947.

This season snow was difficult to handle because of the high winds and drifts accompanying the storms. There wasn't a single case of drifting snow during the winter 1946-47, whereas in our 1947-48 winter nearly every storm was accompanied by high winds. Roads were continually drifting and plowing had to be continued several days after the storms.

The winter was a hard one and it was a task for many of our surrounding towns to keep their roads and

streets open. We are pleased with the job we have done for Milford and the men on the snow plows and the ones doing snow removal work deserve much credit for the tedious yet satisfying duties that they perform.

Although there is an over-expenditure of this appropriation this office feels that the work was done effectively and efficiently. The expenditures were all necessary and the only reduction could have been by curtailment of snow removal operations. This would have yielded unsatisfactory service and results.

The financial report of this appropriation follows:

PARKS AND PLAYGROUNDS

Ordinarily the average citizen thinks of Endicott and Shepard Park when Parks and Playgrounds are mentioned. However, in addition to these two parks this department includes Hartshorn Park on Union Street, the Oval in Union Square, the area between the Cabinet Office and High School driveway which is a part of Endicott Park, the unnamed area across from the People's Laundry, Dean Park which is the area between Crosby Street and the B. and M. Railroad tracks on West Street, the old dump on Elm Street, and the river bank east of People's Laundry.

The activities of this department showed a marked increase. The grass at Shepard Park, Endicott Park, the Oval and Hartshorn Park was kept mowed. To this will be added the area across from the People's Laundry.

At Endicott Park improvement of the river bank was started by cutting brush and making land fills. O.

F. Winslow Inc. filled a large area in back of the Cabinet Office with excess material from the South Street project. This river bank project will be continued so that more of the river bank can be utilized.

The Bartlett Tree Expert Company took care of our trees on the Oval. The trees were sprayed and given a feeding. The results of this care were quite noticeable by the fact that during the summer of 1946 the leaves turned brown unusually early. Last summer the foliage remained green and healthier looking. These trees also needed pruning but the Bartlett Company recommended feeding the trees, leaving the pruning for the coming year.

This office cooperated with a committee made up of townspeople who were interested in a Playground at Endicott Park. They developed a plan and carried it out to a very gratifying conclusion. The money raised by local public subscription was used for hiring supervisors and for the purchase of equipment.

The equipment purchased by this committee was set up and maintained by the town employees under this appropriation. The equipment included swing sets, teeter boards, slides, a jungle gym, basketball baskets, horseshoe pits, archery ranges, and sand boxes for the smaller children. Expendable equipment such as baseballs, bats, gloves, volley balls, etc., were also purchased.

The basement of the High School Building was used for dressing rooms and toilet facilities, and a water bubbler was installed near the Legion booth.

Mr. Willard Kemp was hired as the playground supervisor with Miss Janice Osgood as his assistant. The playground operated for a period of nine weeks, starting with an attendance of 125 on the first day and averaging nearly 100 for each day for the period. The supervised activity program was well planned and consisted of baseball, basketball, horseshoe pitching, arch-

ery, handicraft, bicycle trips, supper hikes, and special event days. Special event day was held on Friday with Cowboy and Indian Day, Pet Show Day, Bicycle Day, Comic Strip Day, Track Field Day, and Playground Day as the special events.

The baseball team played in a league made of nearby playgrounds and summer camp teams, and they had a very successful season.

The handicraft work was well received by the youngsters and they made many useful articles.

The lack of swimming facilities hindered the attendance to a great extent and it has been suggested that some way be found to better this condition.

The Public Works, through this department provided snow fence along the river bank for safety from the river, maintained the equipment, and took the movable equipment down for storage in the fall.

This experience with a supervised playground has shown its need in Milford and its continuation is worthy of consideration.

Skating rinks were maintained at both Endicott Park and Shepard Park. These rinks were very successful and accommodated many skaters. The Shepard Park rink (sponsored by the East Milford Improvement Society) was the larger of the two. Mr. Tullio Bianchi and Mr. Thomas O'Neil rendered valuable voluntary service in making these rinks a success.

The Endicott Park rink enjoyed its most successful year. Since it was the smaller rink it was used primarily by the younger children and it served its purpose well. Another year an effort should be made to provide lights for this rink. The East Milford Club takes care of this at Shepard Park and now that we know that the Endicott Park rink can be successful it should be made more valuable by providing lights.

The financial report of this appropriation follows:

PUBLIC WORKS

Milford Public Works is the name given to the various departments and appropriations that come under its supervision. It does not operate as a department and its function is to maintain an office for records and to supervise operations.

The maintenance of the office and salaries require funds. Yet in the original set-up no provision was made for this purpose. Because of this it was necessary to operate on funds obtained by taking a percentage of each appropriation for this purpose. To handle this in this manner brings in the possibility of unequal distribution and complicates the bookkeeping and problems of the office. The objection would appear to be that it would give the impression that the Public Works system is responsible for the expenditure of more money. This of course is not so, because the Public Works expenses must be met whether raised by an appropriation for that purpose or taken from other appropriations.

Two excellent examples of Public Works expense items that are common to all departments are the telephone bills and the gasoline bought for the trucks. Unless there is a public works appropriation, there is no fair way of apportioning expenses such as these.

The financial report shows the amounts of money taken from last year's appropriations to run this department. Properly the unexpended balance should be distributed back to each department, thereby reducing

their expenditures. This was not done because the amount was small and it reverts back to the town's general fund anyway.

SEWER DEPARTMENT

The work of sewer construction and maintenance is done by the water department employees. In 1946 the work consisted only of maintenance and construction appropriations was carried over to the next year.

The office records of our sewers, manholes and drainage system are gradually being compiled and there is a definite improvement over their condition a year ago.

SEWER CONSTRUCTION:

The Mont Vernon and Webster Street sewer extension projects were the ones carried into 1947, and both of these projects were completed.

The Mont Vernon Street Extension started at Granite Street and was extended with 10-inch pipe 259 feet along Mont Vernon Street to Parker's at a depth averaging 9 to 10 feet. The Naimie and Parker residences were connected to this new sewer.

The Webster Street sewer was extended from the Stoddard house 276 feet to John Conti's new house which was connected to the sewer.

By demand of the Health Officer 255 feet of sewer was laid on Dean Street starting at Oak Street. The Wasto residence was connected to this sewer.

Late in the year, after an earlier decision to abandon the project, the state decided to straighten Mont Vernon Street. This brought out the question of extending the sewer along with the road construction and the Budget Committee was called in for an opinion.

Although the decision was to extend this sewer, later developments showed that it would be uneconomical at this time and project was abandoned until this year. This sewer should be put in this coming year.

The over-expenditure is due to the increase in cost of labor and materials over that at the time the appropriation was made, the laying of sewers at nearly their maximum depth, and the Dean Street sewer which can be considered an emergency.

SEWER MAINTENANCE

An unusually large amount of maintenance seemed to be required with our sewage systems. Several sewers required flushing and the removal of sand. The Souhegan Street sewer gave considerable trouble and a great deal of time was spent removing three truckloads of sand. Many of our other sewers are going to need this same cleaning.

The catch basin at Kendall's on Elm Street was repaired, several catch basin lines cleaned out, several manholes and catch basins lowered, and two new catch basins added to our drainage system. A new catch basin was installed near the Hiltz residence on Summer Street and one near the new Brackley house on George Street.

Five buried manholes were found and uncovered. These five manholes had been covered over by the resurfacing of roads and some had as much as a foot of cover over them. There were indications that some had not been uncovered for years.

Sixteen new house connections were made to sewers. Some of these were the result of drawing the pond on Souhegan Street. The Health Officer ordered all houses that drained into the pond to connect to the sewer.

The gasoline motor that was needed to power drive our flexible sewer cleaning equipment was bought. To make this equipment complete the trailer is needed for transporting the equipment. Having this trailer would make possible storing the equipment so that it can be readily available.

The over-expenditure is mostly due to the work that was necessary to clean the Souhegan Street sewer. It developed into an emergency condition and the sewer had to be opened.

The financial report of this appropriation follows:

TOWN HALL AND OTHER BUILDINGS

In previous years this appropriation was used only for the maintenance of the Town Hall. The town barns were neglected and they have been in a poor state of repairs. Last year work was done on both sets of buildings.

Town Hall:

Several improvements were made in the town hall. These included: re-wiring the building, installation of one electric meter, repairs on the roof, and the purchase of a water cooler for the first floor. During early spring one of the boilers of the heating system developed a leak and had to be overhauled. Shortly after these repairs the boiler cracked and being old boilers, replaceable parts were not available. Thus in the fall a new steel boiler was installed with an oil burning unit.

The remainder of the work has been the routine maintenance required in the upkeep of the building.

Other Buildings:

The town barns are the only buildings that come under this classification. For the first time in several years essential repair work was done on the town barns. The main barn was improved as recommended in last year's report and a section of the roof recovered. This work is better classed as extensive repairs rather than maintenance and a good part of it was done by town employees. Due to the lack of both time and funds the present garage was not altered as planned. There still remains extensive maintenance and repairing to be done before we have a good set of buildings.

The over-expenditure of this appropriation is primarily due to the installation of the new boiler in the town hall which was installed under an emergency and after an expenditure for the repair of the old boilers, drop in town hall income amounting to a decrease of nearly one thousand dollars, and adding the main-

tenance of the town barns to what previously had been only the town hall.

WATER DEPARTMENT

The water department is the biggest single department under Public Works. Its employees do the work of the sewer department and help the highway department when needed.

There were no major improvements completed during the year. The Elm Street and Mason Road extensions have been started by W. C. Ferguson, Contractor of Keene, N. H., who was awarded the contract. Whitman and Howard, Consulting Engineers of Boston, are doing the engineering. It is expected that both of these projects will be completed in the early spring.

The four-inch main on Webster Street was extended from Webster Street to the new house built by John Conti and a new hydrant was installed at the end of this line. This work was done by the water department employees.

In the late summer there were several goosenecks that let go in a short period of time but these were repaired with no general interruption of water service.

The distribution system is old and it will take time, money and diligent maintenance to restore it to a high state of efficiency.

The valve program mentioned in last year's report will be started early this coming summer.

Early in 1946 it was quite clear that the water rates would have to be increased. A temporary twenty-five per cent increase was made until such time that a final equitable rate could be established. It is expected that the new and final rates will soon be announced.

Last year's report called attention to the fact that Milford's water was in need of chlorination. Early in the year the State Board of Health ordered the Milford Water Department to chlorinate its water. Arrangements are being made to bring this about and the installation has not been completed. It is interesting to note that water users have complained of the chlorine

taste in the water, yet the water has not been chlorinated this past year.

The coming year will find the water department with major improvements to be made and financed. These improvements include paying for an overhaul job on the Diesel engine, done at a cost of \$1400.00 in November, a new chlorinator at \$2200.00, payment of an outstanding temporary loan to the town for filter sand \$2400.00, installation of control valves under pressure \$2000.00, replacing or repairing the totalizing water meter at the pumping station, rewiring the pumping station and replacing our pump priming equipment.

In addition to the above, now that the Diesel engine has been overhauled, it is well to consider the use of electric power for our pumping. With electricity the station can be made automatic and this would tend to correspond more closely to our filter rate. It would eliminate the need for night pumping, and would pump when needed for fires because it would be pressure controlled. It would result in more uniform pressures and less waste of water over the top of the standpipe. The Public Service Company of New Hampshire has offered a better electric rate than it did at the time that the Diesel was installed. Comparative studies show that the operating costs would be approximately the same but the advantages listed above make it far superior to the Diesel. In most water works pumping stations, Diesel engines are standbys rather than prime movers.

A careful estimate of the above needs shows that the Water Department will need about \$10,000.00 over and above its operating expenses and revenues. Milford's Water Department, like many other municipal owned plants in New Hampshire, finds itself in the awkward position of having no sinking fund available for this purpose. This poses the very interesting question of whether the money should come from taxation or from an increase in water rates. It is my understanding that this

lack of a sinking fund is a choice of the townspeople based on the argument that being municipally owned, the town accomplish by taxation what a sinking fund should do. This is like towns who write their own fire insurance and when the building burns they raise the funds by taxation. Now the water department needs money from its sinking fund. Since the town is the sinking fund, it is my opinion that this money should be raised by taxation and not by an increase in the water works rates. Since this is the beginning of additional water works expenditures rather than the end, it is my suggestion that the town reconsider the question of permitting the water department to establish a maintenance and replacement sinking fund.

A study of the water department for the last ten years of operation has shown some results worthy of consideration. One of these of major importance is that we account for fifty per cent (50%) of the water pumped at the station. The other 50% is lost through leaks, pumping over the top of the standpipe (eliminated by electrically controlled pumping), unmetered services, fire fighting and unknown outlets. This in water works terminology is known as "Unaccounted for water" and brings no revenue. The reduction of this unaccounted for water is one of our greatest immediate problems. In 1946 we accounted for 43% of water and in 1947 we accounted for 60%. This improvement of 17% shows we are making progress in reducing the unaccounted for water, but a great deal remains to be done.

Again this year the guest register at the pumping station has shown few visits by the townspeople. Let me again urge you to visit the station and see how Milford gets its water.

The financial report of this department is as follows:

**MILFORD WATER WORKS

Fuel oil used for heating	2000 Gallons
Fuel oil on hand Jan. 1, 1948	4498 Gallons
Lubricating oil used	286 Gallons

RECOMMENDATIONS

The following recommendations are made for your consideration:

Building Inspection

It is recommended that a committee be appointed to look into the need of a simple yet effective and workable zoning ordinance and to make recommendations.

Cemeteries

It is recommended that no major projects be done this year. That the work continue as routine maintenance and that definite cemetery policies be established.

Highway Department

Ash Collection

It is recommended that the charge for ash collection this coming year be continued at \$5.50 per standard ash barrel or its equivalent unless the Town Meeting makes an appropriation to cover the expenses of these collections.

Oiling

It is recommended that the oiling of new roads be kept at a minimum, using the oil for treatment. Ponemah Hill Road and Melendy Road are exceptions to this and portions of these roads should be oiled. Since miles of oiled roads have been added to the highway system more oil should be made available.

Sidewalks

It is recommended that a new sidewalk be constructed on Mont Vernon Street where the new road is being built. That the left hand sidewalk on South Street from Union Square to Clinton Street be re-surfaced. The firemen have requested that the sidewalk on Middle Street be narrowed if possible; this should be included.

Street Cleaning

It is recommended that the practice of hiring a regular street cleaner be continued.

Highway Maintenance

It is recommended that the town purchase a tractor that can be used for loading sand, gravel, and snow, for snow plowing and for bulldozing. The purchase of this equipment would effect a substantial savings in gravelling and sanding roads, would increase the efficiency of the Highway Department and add an effective piece of equipment to our inventory.

It is recommended that the 1936 Dodge dump truck be turned in for a new two to three ton dump truck. The maintenance on this truck makes it uneconomical for the town to own. In 1947 \$513.96 was spent on repairs to keep this truck on the road. This amount does not include gas or oil.

It is recommended that Stable Road be improved, that Chestnut Street from Orchard Street to Souhegan Street be improved and that Foster Road from Federal Hill to Ponemah Hill be opened. This latter road would

give a loop to the highway system and facilitate snow plowing.

It is recommended that a program of widening back roads be started because roads cannot be plowed two cars wide when they are only one car wide in the summer time.

It is recommended that the Hall Road from the Mason Road to a point 1.3 miles from the Brookline Line, and that the Wolffer Road from the Wolffer property to the Hall Road be discontinued and made subject to gates and bars. The Hall Road from the Brookline Line north 1.3 miles is already subject to gates and bars. By taking this action the town relieves itself of any obligation incurred in the use of such highway. (Chapter 188, Section 6, Part 9.) If these roads are not made subject to gates and bars then it is recommended that they be improved.

Town Road Aid

It is recommended that the town road aid work continue and that the town raise and appropriate money necessary for this.

Snow Removal

It is recommended that the tractor recommended under highway maintenance be purchased because it can be used as a plowing unit, eliminating one rented plow, and can be used to load snow from the common should Town Meeting decide to remove this snow.

It is recommended that the Dodge truck be replaced by a two to three ton truck, thus eliminating another hired truck.

It is recommended that the policy of plowing only town accepted roads and streets be continued because it makes the town's responsibility clear and definite.

Lull Memorial Trust

It is recommended that the management of this property continue on a maintenance basis.

Parks and Playgrounds

It is recommended that the town accept control of the playground that was started last year and that the additional \$1000.00 required for supervision be raised.

It is recommended that the trees on the Oval be pruned and given three sprayings as recommended by the Bartlett Tree Company.

It is recommended that the bleachers at Endicott Park be repaired so as to serve another year and that a design and estimate be made for new bleachers in 1949.

It is recommended that the skating rink at Endicott Park be lighted next skating season.

Public Works

It is recommended that a Public Works appropriation be established to meet the expense common to all departments.

It is recommended that a one-half ton truck be purchased for the Public Works. This truck would provide transportation for the Superintendent and can be put to good use hauling men and equipment. It could also be pressed into service for sanding and salting in the winter time.

Sewer Construction

It is recommended that the sewer on Mont Vernon Street be extended beyond the Parker property up Adams Street by the V. F. W. Home, to the new milk room that is to be constructed by Edgar Norwood.

It is also recommended that the matter of sewer taxes on newly constructed sewers be reconsidered and to have an entrance cover this if possible. A sewer entrance fee would eliminate this extra calculation of tax and make a more equitable and satisfying method of having the property owner pay his small share of the sewer's cost.

Sewer Maintenance

It is recommended that the program of lowering

manholes and catch basins and the search for buried manholes be continued, that sluggish working catch basins be repaired and that the flushing and cleaning of sewers be extended as much as possible.

Town Hall and Other Buildings

It is recommended that snow rails and gutters on the Town Hall be repaired and that the roof be checked for broken slate.

That the outside woodwork of the Town Hall be painted.

That plans and specifications be prepared for zone heating and correct radiation in the Town Hall. Zone heating would effect a sizable savings in the amount of fuel burned.

That the windows of the library be checked and tightened.

That the present Public Works Office be partitioned off to make a private office for the Superintendent.

Town Buildings

It is recommended that the repairs be continued at the town barns and that the garage be altered and made more weather tight.

If possible it is recommended that the building used by the Fire Department be turned over to the Highway Department.

Water Department

It is recommended that a sum of \$10,000 be raised by taxation for the water department to pay for the filter sand, the new chlorinator, the overhaul work on the Diesel engine, the valve program, the replacement or repairs to well pump and station meter, and for changing from the Diesel engine to electric power for the prime mover.

It is recommended that serious thought be given to the establishment of a maintenance and replacement sinking fund.

CONCLUSION

It is my opinion that Milford Public Works has proved to be a very effective form of town government. It has given the townspeople a central office to conduct their town business and to get answers to their questions and complaints. The principles of the set-up are sound and each year should find it more satisfying to the individual citizen.

It is well to quote from last year's report in saying that Milford finds itself with an abnormal amount of work to be done and that it is not sound economy to try to correct everything in one year. Thus this office is recommending what it only deems necessary for the coming year.

Milford Public Works is operating on the policy of good service for the taxpayer and it will use as a basis of its operation the expressions and decisions of the Town Meeting.

FOREST FIRE PROBLEM

The year 1947 was one of the worst periods of drouth and forest fire occurrence in eastern United States history.

It is now time to take stock everywhere of our fire fighting facilities for the season ahead and to make them adequate where necessary. To this end town fire plans and training programs for wardens, deputies and other key men in each district are being arranged or in progress. If equipment and tools are insufficient properly to equip the available man power in each community with the right tools for the job, they should be provided for at once. The yearly addition of fire tools to the town supply will generally need to be built up. The state sells tools to the towns and shares one-half of their cost. Good equipment is important and can help greatly to keep both damage and fire costs at a minimum.

For many years we have requested our wardens not to issue burning permits except on rainy days. This regulation will be in effect again this year as it is one of the best means of assuring such fires from getting out of control. Nine out of every ten fires can be prevented, 98 percent of all fires being due to human carelessness. Be sure to get a permit for any fire in or near woodland when the ground is free from snow. Be sure your fires are always out before you leave them. Help us in getting the travelling public to keep from throwing out lighted matches or cigarettes. Be careful of all fires in or near woodland.

CHARLES F. YOUNG,
District Fire Chief
N. H. Forestry and Recreation Dept.

1947 FIRE RECORD

Number of Fires	7
Acreage Burned	6

CHIEF J. J. CASEY,
Forest Fire Warden.
